BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Vocational Nurse	§	AGREED
License Number 147585	§	
issued to RAY MAC BLAYLOCK	§	ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of RAY MAC BLAYLOCK, Vocational Nurse License Number 147585, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on March 11, 2010, by Katherine A. Thomas, MN, RN, Executive Director.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from Amarillo College, Amarillo, Texas, on May 27, 1994. Respondent was licensed to practice vocational nursing in the State of Texas on July 20, 1994.
5. Respondent's nursing employment history includes:

07/94 - 09/96	Unknown
---------------	---------

Respondent's vocational nursing employment history continued:

10/96 - 08/97	LVN	Baptist Hospital Amarillo, Texas
08/97 - 10/99	LVN	Country Club Manor Nursing Home Amarillo, Texas
08/99 - Unknown	LVN	VA Medical Center Amarillo, Texas
02/02 - 08/06	LVN	University Medical Center Lubbock, Texas
09/06 - Present	Unknown	

6. At the time of the initial incident, Respondent was employed as a licensed vocational nurse with University Medical Center, Lubbock, Texas, and had been in this position for four (4) years and five (5) months.
7. On or about July 1, 2006 through July 21, 2006, while employed as a Staff Nurse with University Medical Center, Lubbock, Texas, Respondent withdrew medications from the Pyxis medication dispensing system for patients, but failed to accurately and/or completely document the administration of those medications in the patients' medication administration record (MAR) and/or nurse's notes. Respondent's conduct was likely to injure the patients in that subsequent care givers would rely on her documentation to further medicate the patient which could result in an overdose.
8. On or about July 1, 2006 through July 21, 2006, while employed as a Staff Nurse with University Medical Center, Lubbock, Texas, Respondent withdrew medications from the Pyxis medication dispensing system for patients, but failed to follow the facility's policy and procedure for wastage of the unused portions of the medications. Respondent's conduct was likely to deceive the hospital pharmacy and placed them in violation of Chapter 481 of the Texas Health & Safety Code (Controlled Substances Act).
9. In response to Findings of Fact Numbers Seven (7) and Eight (8), Respondent states that a computer system was used to document medication administration (E-MAR). Because LVNs were required to care for seven to eight patients per shift, many times it was physically impossible to get to the computer at the exact time the medication was dispensed. Respondent states that most nurses could not chart until two to three hours after dispensing the medication. Because of the time difference, Respondent states there was a possibility for documentation errors, none of which were intentional.

10. On or about July 2006, while employed as a Staff Nurse with University Medical Center, Lubbock, Texas, Respondent failed to accurately and/or completely document pain assessments in the medical records of patients. Respondent's conduct resulted in inaccurate/incomplete medical records and was likely to injure the patients in that subsequent care givers would not have accurate information to base their decisions for further care.
11. In response to Finding of Fact Number Ten (10), Respondent states that when a patient complained of pain, the documentation was placed into the E-MAR before the medication was given. After the pain medication was given, there is a place to document regarding the patient's pain one hour after the medication had been administered. Respondent states that in order to prevent double-documenting, nurses were trained to only document the patients' pain level on the EMAR, and not on the patient assessment form. Respondent states he was never trained to double-document.
12. On or about July 2006, while employed as a Staff Nurse with University Medical Center, Lubbock, Texas, Respondent failed to timely administer narcotics that had been withdrawn from the Pyxis medication dispensing system. Respondent's conduct delayed the onset of medical interventions and was likely to injure the patients in that failing to administer medications are ordered by the physician could result in non-efficacious treatment.
13. In response to Finding of Fact Number Twelve (12), Respondent states that he was trained that he had one hour from the time medication was ordered and dispensed by the pharmacy to give the medicine and to document it. Many times Respondent would be on his way to give the medication and would be pulled away to accomplish other tasks. Respondent states that he simply documented the correct time he gave the medication rather than falsifying the time the medication was given.
14. On or about July 20, 2006, while employed as a Staff Nurse with University Medical Center, Lubbock, Texas, Respondent failed to discharge Patient Medical Record Number 7026987 with prescriptions for Lortab and Levofloxacin, as ordered by the physician. Respondent's conduct was likely to injure the patient in that failing to provide prescriptions, as ordered by the physician, could result in non-efficacious treatment.
15. In response to Finding of Fact Number Fourteen (14), Respondent states that the physician did not order Lortab and Levofloxin. Respondent states that the order was for Levaquin, which is the brand name for Levofloxin and that the patient was given his medication upon discharge.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.

2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§217.11(1)(A),(B),(C)&(D) and 217.12(1)(A),(1)(B),(1)(C),(4),(10)(C)&(11)(B).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Vocational Nurse License Number 147585, heretofore issued to RAY MAC BLAYLOCK, including revocation of Respondent's license to practice vocational nursing in the State of Texas.
