FINAL ORDER

Case No. 11-138

The Oregon State Board of Nursing (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including Registered Nurses, in the State of Oregon. Corina J. Anderson (Licensee) is a Registered Nurse in the State of Oregon.

This Matter was considered by the Board on February 16, 2011. Licensee did not appear personally. The issue for the Board was whether to approve the Stipulation for Reprimand signed by Licensee on December 20, 2011 and so dispense with this Matter pursuant to ORS 183.417(3).

Upon review of the Stipulation and the agency file in this Matter, the Board finds that reasonable factual and legal grounds exist to support approval of the Stipulation. It is hereby

ORDERED that the Stipulation signed by Licensee on December 20, 2011 be approved and by this reference incorporated herein, and it is further

ORDERED that the Board adopt the Stipulation and that the Registered Nurse License of Corina J. Anderson be reprimanded as set forth in the Stipulation. Licensee shall meet all terms and conditions set forth in the Stipulation.

DATED this 16 day of February, 2011.

**STIPULATION FOR REPRIMAND
OF REGISTERED NURSE LICENSE
Case No. 11-138**

Corina J. Anderson, hereinafter referred to as "Licensee", was licensed by endorsement on October 25, 2001. Licensee was employed in the surgical unit at Holy Rosary Medical Center. She has been there since 2001.

On September 27, 2010 the Board opened an investigation after learning that Licensee was terminated for poor nursing practice, lack of competence and poor documentation. The complainant reported that Licensee was involved with a "never event" in which a surgeon almost operated on the wrong limb, due to Licensee's failure to properly verify and label the surgical site.

During a personal interview with Board staff on October 7, 2010, Licensee said that she worked full time at Holy Rosary Medical Center in the surgical unit. She said that she had just returned to work after a lengthy leave of absence. Licensee said that she faced a hostile work environment and tried to get oriented to the unit. She said that she was constantly undermined by her co-workers and managers.

Licensee admits that the "never event" that occurred was her mistake. Licensee said that she was working with a team and that the team had been very busy that day. This was the last case of the day and Licensee said that once she identified the patient, she placed the leg holder on the bed. Licensee said that she did not realize that she placed the leg holder on the wrong side of the bed. Licensee said that the limb was marked correctly but that while waiting, the patient had crossed her legs leaving the marking on the non-operative leg.

Licensee said that the CRNA had started the infusion block to that leg when the surgeon realized that it was the wrong leg and halted the proceedings. Licensee said that no incisions were made on the non-operative foot. Licensee said that after this event occurred, she went straight to her manager to report it. Licensee said that she has been very stressed at work.

The above conduct is a violation of the provisions of ORS 678.111 (1) (f) (g) and 851-045-0070 (1) (a).

ORS 678.111

(1) Issuance of a license to practice nursing, whether by examination or by endorsement, of any person may be refused or the license may be revoked or suspended or the licensee may be placed on probation for a period specified by the Oregon State Board of Nursing and subject to such condition as the Board may impose or may be issued a limited license or may be reprimanded or censured by the Board, for any of the following causes:

(f) Conduct derogatory to the standards of nursing.

(g) Violation of any provision of ORS 678.010 to 678.445 or rules adopted thereunder.

OAR 851-045-0015

Nurses, regardless of role, whose behavior fails to conform to the legal standard and accepted standards of the nursing profession, or who may adversely affect the health, safety, and welfare of the public, may be found guilty of conduct derogatory to the standards of nursing. (1) Conduct related to client's safety and integrity:
