6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Kindred Mansfield, Mansfield, Texas, and had been in this position for two (2) years and one (1) month.

7. On or about April 20, 2010, while employed as a staff nurse with Kindred Hospital, Mansfield, Texas, Respondent inappropriately used a Foley catheter to replace a Percutaneous Endoscopic Gastrostomy (PEG) feeding tube that had dislodged from the stoma of Patient FE00154347 and then resumed the tube feedings through the Foley catheter without a physician's order. Later the next day, after the patient's condition worsened; it was discovered by an abdominal Computerized Tomography scan that Patient FE00154347 had fluid in her peritoneal cavity. Respondent's conduct exposed the patient unnecessarily to a risk of harm from medical complications due to the use of an unauthorized Foley catheter.
8. In response to the incident in Findings of Fact Number Seven (7), Respondent states in part, "Yes, I did place the Foley in the Percutaneous endoscopic gastrostomy (PEG) stoma, upon verifying placement in accordance with the only policy I am aware of, I did restart the tube feed."
