BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Vocational Nurse § AGREED
License Number 77930 §
issued to JOYCE ANN CARMACK § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of JOYCE ANN CARMACK, Vocational Nurse License Number 77930 hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on September 28, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

7. On or about September 22, 2009, through November 16, 2009, while employed as a Home Health Nurse with Fountains Home Healthcare, Inc., Arlington, Texas, Respondent failed to assess and intervene appropriately regarding changes in the condition of Patient RL, including assessment of fluid restriction, daily weights, and pulmonary status. Respondent's conduct was likely to injure the patient from clinical care decisions formulated based upon incomplete assessment information.
8. On or about September 22, 2009, through November 16, 2009, while employed as a Home Health Nurse for Fountains Home Healthcare, Inc., Arlington, Texas, Respondent failed to report to her RN supervisor and/or physician that Patient RL was frequently noncompliant with physicians' orders, had a change of condition and a wound, and needed his medication renewed. The patient died from a heart attack on November 19, 2009. Respondent's conduct was likely to injure the patient and delay information needed by the physician to formulate his clinical care decisions.
9. In response to the incidents in Finding of Fact Numbers Seven (7) through Eight (8), Respondent states that during the time she visited Patient RL she documented that he was non-compliant with his medications. Respondent also states that on October 31, 2009, she documented that he was out of some medication that his physician had not called in for him.

She states that she called the physician and left a message regarding this but received no return call. On November 7, 2009, the patient was noted to have increased edema and he was told, by Respondent, that he must see his physician on the next available clinic day, which was two (2) days later. On November 14, 2009, the patient was found to be taking more Lasix than was prescribed, but he was not taking the medication on a regular basis. He was again advised to see his physician as soon as possible and he was warned of consequences of using his medications incorrectly. On every visit, Respondent states that she assessed his cardiac and respiratory status. According to Respondent, the patient had no scale in order to do his own daily weights and she was not provided a special scale by the home health agency in order to weigh this patient, who was known to weigh over 300 lbs. Respondent states that pulse oximetry was not done due to lack of equipment and that she asked the agency for access to a pulse oximeter on numerous occasions, but she was never supplied with one. Respondent states that this patient had no order regarding specific fluid restrictions but states that she did educate him on dietary restrictions regarding salt intake.
