BEFORE THE TEXAS BOARD OF NURSING

issued to BARBARA M. COX § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of BARBARA M. COX, Registered License Number 526992, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(1),(9)&(10), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on March 23, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

3. Respondent's license to practice professional nursing in the State of Texas is currently in Delinquent status.
4. Respondent received an Associate Degree in Nursing from McLennan Community College, Waco, Texas, on May 1, 1985. Respondent was licensed to practice professional nursing in the State of Texas on August 28, 1985.

7. On or about July 20, 2006, Respondent was issued a Reinstatement Agreed Order by the Board of Nurse Examiners for the State of Texas that required her to participate in and successfully complete the Texas Peer Assistance Program for Nurses (TPAPN). A copy of the Findings of Fact, Conclusions of Law, and Agreed Order dated July 20, 2006, is attached and incorporated, by reference, as part of this Order.
8. At the time of the initial incident referred to in Finding of Fact Number Nine (9), Respondent was employed as a Registered Nurse with Providence Hospital, Waco, Texas, and had been in this position for approximately two (2) months.

9. On or about March 13, 2008, while employed as a Registered Nurse at Providence Hospital, Waco, Texas, Respondent engaged in the intemperate use of Alcohol in that she submitted a specimen for a random drug screen which resulted positive for Ethyl Glucuronide. Additionally, Respondent admitted to drinking Nyquil. The use of Alcohol by a nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in patients' conditions, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.

11. In response to Finding of Fact Number Nine (9) and Ten (10), Respondent states that she believes the positive drug screen must have been caused by the cold medicines that she had been taking. Respondent states that she took Nycol in the cap form, which does not contain alcohol. Additionally, Respondent states that she has over three and a half (3.5) years of strong, committed sobriety. Respondent states that she is actively involved with her home AA group and sponsor (several young women in their journey to recovery), that she attends conferences, goes on Twelve Step calls, and maintains a consistent and honest relationship with her sponsor.
12. Respondent's last known date of sobriety is March 13, 2008, as indicated in Finding of Fact Number Nine (9).
