BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of Registered Nurse           §       AGREED  
License Number 750843                       §  
issued to MELISSA SUE WARNTJES       §       ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of MELISSA SUE WARNTJES, Registered Nurse License Number 750843, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on April 21, 2010, by Katherine A. Thomas, MN, RN, Executive Director.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from El Centro College, Dallas, Texas on December 13, 2007. Respondent was licensed to practice professional nursing in the State of Texas on February 5, 2008.
5. Respondent's nursing employment history includes:

1/2008 - 12/2008	Staff Nurse	Presbyterian Hospital of Dallas
	Labor & Delivery	Dallas, Texas

Respondent's professional nursing employment history continued:

1/2009 - 7/2009	Staff Nurse	University of Texas Southwestern Spine Center Dallas, Texas
7/2009 - 3/2010	Nurse Manager	FastER Care Urgent Care Center Richardson, Texas
4/2010 - Present	Unknown	

6. At the time of the initial incident, in Finding of Fact Number Seven (7), Respondent was employed as a Staff Nurse with Presbyterian Hospital of Dallas, Dallas, Texas, and had been in this position for seven (7) months.
7. On or about August 27, 2008, while employed as a Staff Nurse with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent incorrectly infused Intravenous Fluid for Patient MR#976455 at a rate of 200cc's per hour instead of 150cc's per hour, as ordered. Respondent's conduct resulted in the patient receiving more fluid than ordered by the physician and could have resulted in the patient experiencing fluid overload.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states an error was made by the nurse she was precepting and Respondent caught the error. Respondent also states she had only been out of school eight (8) months and had expressed concerns that she was still learning and was uncomfortable in the role of supervisor before the precept was assigned to her. However, Respondent acknowledges that as the preceptor she was responsible for the patient, but the mistake was caught, dose changed, and the physician was notified.
9. On or about November 22, 2008, while employed as a Staff Nurse with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to document Vital Signs on post-operative Patient MR#1279564. Respondent's conduct resulted in an incomplete medical record that was likely to cause injury to the patient in that subsequent care givers would be denied essential information on which to base further patient care.
10. In response to the incident in Finding of Fact Number Nine (9), Respondent states that when patients are returned to their rooms after surgical procedures, the Certified Registered Nurse Anesthetist who accompanies the patient connects the patient to the vital signs monitor and sets the monitor to record the vital signs. Respondent states that on this occasion, the monitor was not set to record the readings, but Respondent was in the room and would have noticed if there were any abnormal readings.

11. On or about December 24, 2008, while employed as a Staff Nurse with Presbyterian Hospital of Dallas, Dallas, Texas, Respondent failed to document that she notified the physician that Patient MR#1042306 had experienced three (3) elevated blood pressure and pulse reading between 16:00 and 21:30. Respondent's conduct resulted in an incomplete medical record that was likely to cause injury to the patient in that subsequent care givers would be denied essential information on which to base further patient care.
12. In response to the incident in Finding of Fact Number Eleven (11) Respondent states the physician had written parameters for his patients and had instructed the nurses to contact him only if the patient went outside the parameters which this patient did not. Respondent also states she called the physician to report her concerns regarding the blood pressure.
