issued to RHONDA J. SHOCKLEY § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of RHONDA J. SHOCKLEY, Registered Nurse License Number 254941, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on April 1, 2009, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with the

University of Texas Health Center at Tyler, Tyler, Texas, and had been in this position for one (1) year and eight (8) months.

7. On or about February 27, 2008, while employed as a Registered Nurse with the University of Texas Health Center at Tyler, Tyler, Texas, Respondent altered a prescription to read: Tussionex one (1) tsp PO BID, 8oz when, in fact the physician had originally written the prescription to read: Tussionex one (1) tsp PO BID, 3oz. Respondent signed another nurse's initials on the prescription and then she faxed it to the Pharmacy at the University of Texas Health Center at Tyler. Furthermore, Respondent tried to cover up her actions by destroying the original prescription. Respondent's conduct was likely to deceive the pharmacy and possession of Tussionex through the use of a forged/altered prescription is prohibited by Chapter 481 of the Texas Health and Safety Code.
8. Respondent admits to changing the prescription to read 8 ounces instead of the prescribed 3 ounces. Respondent states that she had been unable to sleep for seventy-two (72) hours due to a family emergency and a constant cough. Respondent's health record at UTHCT documents that she was diagnosed with influenza Type B, with symptoms of severe cough and fever of 102 during work the day of the incident. Respondent states that she now realizes that she has limits, and should not have gone into work feeling ill and sleep deprived that day.
9. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.

SHOCKLEY, including revocation of Respondent's license to practice professional nursing in the State of Texas.
