WHEREFORE, PREMISES CONSIDERED, the Board of Nurse Examiners for the State of Texas does hereby ratify and adopt the Agreed Order that was signed on the 15th day of May, 2007, by HELEN M. STEIGER, Registered Nurse License Number 537042, and said Order is final.

Effective this 12th day of June, 2007.

Katherine A. Thomas, MN, RN
Executive Director on behalf
of said Board

5. Respondent's professional nursing employment history includes:

3/87-3/98	Senior Transplant Coordinator Children's Hospital Houston, Texas
3/98-9/98	Unknown
9/98-2/01	Associate Director-Outpatient Clinic Shriners Burn Hospital Galveston, Texas
2/01-Present	Infusion Specialist Accredo Therapeutics Houston, Texas
2/03-3/04	Infusion Nurse Specialist Trinet and Genezen Healthcare, Inc. Addison, Texas
9/05-Present	Staff Nurse Memorial Hermann Hospital Houston, Texas

6. At the time of the initial incident, Respondent was employed as an Infusion Nurse Specialist with Trinet and Genezen Healthcare, Inc., Addison, Texas, and had been in this position for approximately three (3) months.
7. On or about or about May 10, 2003, while employed with Trinet and Genezen Healthcare, Inc., Addison, Texas, Respondent falsified the medical record of Patient Medical Record Number 1165, in that Respondent documented that she read the results of the patient's Purified Protein Derivative (PPD) Test and that the results were negative. However, Trinet and Genezen Healthcare, Inc., Addison, Texas, was closed on May 10, 2003, and Respondent did not report working on May 10, 2003, on her timesheet. Respondent's conduct was likely to deceive the facility and injure the patient in that subsequent care givers would rely on her documentation to further treat the patient.
8. On or about May 10, 2003, Respondent failed to read Patient Medical Record Number 1165's PPD, who was previously diagnosed with latent tuberculosis, prior to initiating Remicade therapy. As a result, the patient developed a recurrence of latent tuberculosis, which is one of the contraindications of using Remicade, and the clinic had to administered PPDs to all of the patients that were exposed to Patient Medical Record Number 1165 during his infusions. Of the twenty-nine (29) patients that were exposed to Patient Medical Record

Number 1165, two (2) patients tested positive for tuberculosis and were placed on INH therapy. These two (2) patients tested negative prior to the exposure. Respondent's conduct exposed the patients unnecessarily to a risk of harm.

9. On or about March 29, 2004, while employed with Trinet and Genezen Healthcare, Inc., Addison, Texas, Respondent failed to completely and accurately document Patient Medical Record Number 11779's vital signs. Respondent's conduct was likely to injure the patient in that subsequent care givers would rely on her documentation to further treat the patient.
10. On or about March 31, 2004, while employed with Trinet and Genezen Healthcare, Inc., Addison, Texas, Respondent falsified the medical record of Patient Medical Record Number 11779, in that Respondent documented the patient's vital signs, which were to have been taken and documented on March 29, 2004, but failed to indicate that her documentation was a late entry. Respondent's conduct was likely to deceive the facility and injure the patient in that subsequent care givers would rely on her documentation to further treat the patient.
11. On or about March 31, 2004, while employed with Trinet and Genezen Healthcare, Inc., Addison, Texas, Respondent increased Patient Medical Record Number 5279's dose of Remicade without a valid physician's order and without prior authorization and/or approval. Respondent's conduct was likely to injure the patient in that the administration of Remicade without a valid physician's order and without prior authorization and/or approval could have resulted in non-efficacious treatment. Respondent claims that it was common practice at this facility to have the physician verbally authorize such procedures while the physician was making clinic visits and that the physician would sign-off on the procedure after reviewing the patient's chart and Respondent's notes at the end of the day.

2. Notice was served in accordance with law.

4.
