Respondent's nursing employment history continued:

2/2011 - 12/2011	Staff Nurse	East Texas Medical Center Athens, Texas
------------------	-------------	--

12/2011 - Present	Nurse Supervisor	Terrell State Hospital Terrell, Texas
-------------------	------------------	--

6. At the time of the initial incident, Respondent was employed as a weekend Charge Nurse with Ennis Care Center, Ennis, Texas, and had been in this position for six (6) months.
7. On or about September 12, 2010, while employed as a weekend Charge Nurse with Ennis Care Center, Ennis, Texas, Respondent failed to document assessments and interventions when it was discovered that Resident BR was experiencing respiratory distress. Additionally, Respondent failed to document the physician's orders to transfer the patient to the hospital or notification of the family of the patient's condition in the medical record. Respondent's failure to document deprived subsequent caregivers of vital information on which to base further nursing care and interventions.
8. On or about January 16, 2011, while employed as a weekend Charge Nurse with Ennis Care Center, Ennis, Texas, Respondent failed to administer medications to Resident RB, as ordered, and mistakenly documented they were administered in the Medication Administration Record (MAR). Additionally, the patient's medications were found in a labeled medication cup in a medication cart drawer. Respondent's failure to administer medication as ordered by the physician may have prolonged the patient's recovery. Additionally, Respondent's conduct was likely to deceive other caregivers who needed complete information on which to base their care and interventions.
9. In response to Finding of Fact Number Seven (7), Respondent states she assessed the patient and found her to be in respiratory distress. Respondent adds that she administered a Nebulizer treatment, monitored her oxygen, assessed her respirations, lung sounds and elevated the head of her bed. Respondent asserts that she contacted the physician and notified the family of the Physician's order to transfer the patient to the hospital by ambulance. In response to Finding of Fact Number Eight (8), Respondent states she attempted to administer the scheduled medications and the patient refused them. According to Respondent, she placed the medications in a cup, labeled the cup with the Resident's name to attempt to administer them later. Respondent states it was not her intention to falsely document that the medications were administered and adds she should have made a note to herself to correct the record and dispose the medications.
