"Given that it has not been one year since Respondent embarked on complete sobriety (she noted that September 2012 was when she last had alcohol), it is recommended that a continued program of random urine drug screens be carried out at her place of employment. It is also recommended that the current treatment steps continue in place, these included:

 1. Regular AA attendance of a minimum of 3 times per week;
 2. Continued contact with her AA sponsor;
 3. Avoidance of places where alcohol is the focus of activity;
