BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of § AGREED  
Registered Nurse License Number 711812 §  
issued to SHANON CHAMBERS SHAW § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of SHANON CHAMBERS SHAW, Registered Nurse License Number 711812, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13) and 301.453, Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on September 24, 2013, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from Walla Walla Community College, Walla Walla, Washington, on June 9, 2004. Respondent was licensed to practice professional nursing in the State of Texas on December 10, 2004.
5. Respondent's nursing employment history includes:

|                 |             |  |
|-----------------|-------------|--|
| 12/2004-12/2006 | Staff Nurse | Christus St. Elizabeth Hospital<br>Beaumont, Texas |
|-----------------|-------------|--|

Respondent's nursing employment history continued:

|                 |             |   |
|-----------------|-------------|---|
| 12/2006-1/2007  | Staff Nurse | The Medical Center of Southeast Texas<br>Port Arthur, Texas |
| 02/2007         | Unknown     |   |
| 3/2007- 5/2013  | Staff Nurse | Baptist Orange Hospital<br>Orange, Texas                    |
| 6/2013- Present |             | Unknown   |

6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Baptist Orange Hospital, Orange, Texas, and had been in this position for five (5) years and eight (8) months.
7. On or about November 25, 2012, through November 26, 2012, while employed as a Staff Nurse with Baptist Orange Hospital, Orange, Texas, Respondent failed to notify the physician when Patient Number 500120749 produced only fifty (50) cc of urine during the twelve (12) hour shift. When the next shift notified the physician of the low output overnight, the patient was diagnosed with acute renal failure and treated for dehydration. Respondent's conduct was likely to injure the patient by depriving the physician of vital information that would be required to institute timely medical interventions to address the patient's low urinary output.
8. On or about November 29, 2012, while employed as a Staff Nurse with Baptist Orange Hospital, Orange, Texas, Respondent failed to report a critically high sodium blood level of Patient Number 500063304 to the physician. Additionally, Respondent failed to treat the patient's continued high blood pressure through the shift and report the high blood pressure to the physician. Respondent's conduct was likely to injure the patient by depriving the physician of vital information that would be required to institute timely medical interventions to stabilize the patient's blood pressure and address the critically high sodium level.
9. On or about April 2, 2013 through April 3, 2013, while employed as a Staff Nurse with Baptist Orange Hospital, Orange, Texas, Respondent failed to report a critically low calcium level, three separate critically low potassium levels, and two separate critically high CO<sub>2</sub> levels of Patient Number 501130024 to the physician. Respondent's conduct was likely to injure the patient by depriving the physician of vital information that would be required to institute timely medical interventions to address the abnormal lab values.
10. In response to Findings of Fact Numbers Seven (7) through Nine (9), Respondent states that regarding Patient Number 500120749, decreased output was not a new finding and therefore did not need to be reported. Regarding Patient Numbers 500063304 and Number 501130024, Respondent states that the lab is to notify nurses of critically low values, and she does not recall being notified by the lab.
