

Respondent's professional nursing employment history continued:

09/09 - 07/12	RN	Children's Medical Center Legacy Plano, Texas
08/12 - 08/12	Unknown	
09/12 - 01/13	RN	Pediatric Associates of Dallas Plano, Texas
02/13 - Present	Unknown	

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Pediatric Associates of Dallas, Plano, Texas, and had been in this position for two (2) months.
7. On or about October 30, 2012, while employed with Pediatric Associates of Dallas, Plano, Texas, Respondent inadvertently administered two (2) doses of the Varicella vaccine to Patient Medical Record Number 361942. Respondent's conduct was likely to injure the patient in that the administration of vaccinations in excess of the physician's order could result in the patient suffering from adverse reactions.
8. On or about December 21, 2012, while employed with Pediatric Associates of Dallas, Plano, Texas, Respondent incorrectly administered a Kinrix vaccine to Patient ID Number 344928, instead of a Hepatitis A vaccine, as ordered by the physician. Respondent's conduct was likely to injure the patient in that the administration of vaccinations without a valid physician's order could result in the patient suffering from adverse reactions, and failure to administer vaccinations as ordered by the physician could result in non-efficacious treatment.
9. In response to Finding of Fact Number Seven (7) and Eight (8), regarding the Varicella vaccine, Respondent states that the patient was being seen for his one year well check and the patient's physician ordered the standard one year vaccinations. Respondent states that she went to the freezer to remove the vaccines and instead of removing a Varicella vial and a MMR vial, she removed a Varicella vial and a ProQuad (Varicella/MMR) vial instead. Respondent states that she realized her mistake the following day when she was removing vaccines for another patient and noticed something different. Respondent states she corrected her documentation and notified the Lead Nurse and physician, who then notified the patient's parents that same day. Regarding the Kinrix vaccine, Respondent states that she was feeling ill that day and was administering vaccinations to three (3) siblings. Respondent states that the Hepatitis A vaccine is usually in a pre-filled syringe, but that day it was not and she accidentally grabbed the Kinrix instead. Respondent states she realized her mistake when she saw the label on the syringe as she was putting it into the sharps container. Respondent adds that she went to the doctor later that day and tested positive for influenza A.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555 , the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §§217.11(1)(A),(B)&(C) and 217.12(1)(A),(1)(B)&(4).
4. The evidence received is sufficient cause pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 777638, heretofore issued to KELLY LYNN STONE, including revocation of Respondent's license(s) to practice nursing in the State of Texas.
