BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 812283 §
issued to LOUIS ALBERT PELATA § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of LOUIS ALBERT PELATA, Registered Nurse License Number 812283, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13) and 301.453, Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on January 17, 2014, subject to ratification by the Board.

FINDINGS OF FACT

- 1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
- 2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
- 3. Respondent is currently licensed to practice professional nursing in the State of Texas.
- 4. Respondent received an Associate Degree in Nursing from Alvin Community College, Alvin, Texas, on December 10, 2011. Respondent was licensed to practice professional nursing in the State of Texas on January 24, 2012.
- 5. Respondent's nursing employment history includes:

1/2012-5/2012	Unknown	
6/2012-3/2013	RN	Kindred Hospital Pasadena, Texas

Respondent's nursing employment history continued:

3/2013-Present Registered Nurse Clear Lake Regional Hospital
Webster, Texas

6. At the time of the incident, Respondent was employed as a Registered Nurse with Clear Lake Regional Hospital, Webster, Texas, and had been in this position for approximately three (3) months.
7. On or about June 4, 2013, through June 5, 2013, while employed as a Registered Nurse with Clear Lake Regional Medical Center, Webster, Texas, Respondent failed to re-assess Patient L. U., for five (5) hours, or notify the patient's physician of a significant change of condition. Respondent documented in the patient's medical record at 01:03 that the patient had new complaints of pain, eight (8) on a one to ten (1-10) pain scale, in his right leg and both feet and had a new reddened area on his right lower extremity. At 06:04 Respondent documented that the patient's pain level was five (5), on a one to ten (1-10) pain scale, in his right leg and both feet. The oncoming shift notified the patient's physician at 08:27 of the patient's complaints of pain and the redness noted on the patient's right thigh and foot. Subsequently, the patient was transferred to the Intensive Care Unit where he was diagnosed with necrotizing fasciitis, a flesh eating bacteria. On June 6, 2013 the patient subsequently died, with a cause of death listed as necrotizing fasciitis and Wegners Granulomatosis. Respondent's conduct exposed the patient unnecessarily to risk of harm from ineffective treatment and deprived the patient's physician the opportunity to institute timely medical interventions to stabilize the patient and may have contributed to the patient's demise.
8. In response to Finding of Fact Number Seven (7), Respondent states he provided effective and skilled nursing care to this patient. Respondent states that the patient had pain and lower leg redness and that the patient was gotten up out of bed several times throughout the night and that the patient had some weakness but there was no change in condition noted until the end of the shift when he noted a new red patch on the upper thigh. Respondent states that he knew the Physician Assistant (P.A.) would be on the floor in a short time and so he put the patient back into bed and made him comfortable and as soon as the P.A. arrived he reported the new red area to him and the P.A. assessed the patient.
