BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Vocational Nurse	§	AGREED
License Number 148203	§	
issued to JANE B. KELSEY	§	ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of JANE B. KELSEY, Vocational Nurse License Number 148203, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10))&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on June 26, 2011, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from McLennan Community College, Waco, Texas on August 19, 1994. Respondent was licensed to practice vocational nursing in the State of Texas on September 7, 1994.
5. Respondent's nursing employment history includes:

09/1994 - 1995		Unknown
1995	Staff Nurse	St. Elizabeth's Nursing Home Waco, Texas

Respondent's nursing employment history continued:

1995	Staff Nurse	Oakview Manor Hubbard, Texas
1996 - 1997	Staff Nurse	Quality Care of Waco Waco, Texas
1997 - 1999	Staff Nurse	St. Catherine's Nursing Home Waco, Texas
1999 - 2001	Staff Nurse	Providence Hospital Waco, Texas
2001 - 2002	Home Health Nurse	Outreach Home Health Temple, Texas
2001 - 2003	Agency Nurse	Med Staffing Plano, Texas
2002 - 2003	Corrections Nurse	UTMB Prison Unit at Gatesville, Texas

2005	Corrections Nurse	McLennan Community Jail Waco, Texas
2006 -2007	Agency Nurse	Angel Medical Staffing Waco, Texas
2007 - 2008	Staff Nurse	Freeman Center Waco, Texas
01/2008 - 01/2009	Staff Nurse	Providence Depaul Center Waco, Texas
02/2009 - Unknown	Staff Nurse	Freeman Center Waco, Texas

6. At the time of the initial incident, Respondent was employed as a staff nurse with Providence Depaul Center, Waco, Texas, and had been in this position for one (1) year and one (1) month.
7. On or about April 10, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent failed to correctly transcribe Methotrexate two and

- a half (2.5) milligrams, three (3) tablets, every Wednesday, as ordered, for Patient Medical Record Number 922641. Respondent failed to block out the other days of the week on the Medication Administration Record making it appear as if the patient was to receive the medication every day. Respondent's conduct was likely to injure the patient in that failure to transcribe Methotrexate as ordered by the physician, could have resulted in the excess administration of Methotrexate, an anti-neoplastic drug, and the patient suffering from adverse reactions including bone marrow suppression, anemia, gastrointestinal bleeding, seizures, increased intracranial pressure or death.
8. On or about May 7, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent failed to correctly document administration of Lexapro (antidepressant) ten (10) milligrams on the Medical Administration Record of Patient Medical Record Number 918456. Respondent circled the time, indicating that she did not administer the medication when in fact she had administered it to the patient. Respondent's conduct was likely to injure the patient in that subsequent care givers would rely on her documentation to further medicate the patient which could result in an over dosage and possible adverse reactions including lethargy, hypertension, heart palpitations, and chest pain.
 9. On or about May 27, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent, failed to administer Toprol XL fifty (50) milligrams, an anti-hypertensive, Abilify (anti-psychotic), five (5) milligrams, and Exelon (used to treat dementia) one and a half (1.5) milligrams, to Patient Medical Record Number 922769. The medications were prepared for administration but never administered to the patient and were later found in a medication cup in the medication cupboard. Respondent's conduct was likely to injure the patient in that failure to administer medications as ordered by the physician could have resulted in non-efficacious treatment from under treating patient symptoms resulting in possible hypertensive episodes, and increased psychosis.
 10. On or about June 17, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent failed to correctly transcribe Cogentin one (1) milligram, twice a day, as ordered, for Patient Medical Record Number 905542. Respondent transcribed it to be administered once a day. Respondent's conduct was likely to injure the patient in that failure to transcribe medications as ordered by the physician could have resulted in non-efficacious treatment from under treating patient symptoms.
 11. On or about November 5, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent incorrectly administered Pulmacort inhaler a day early to Patient Medical Record Number 919630. The order was for Pulmacort once every three (3) days, Respondent administered it after two (2) days, one day early. Respondent's conduct was likely to injure the patient in that failure to administer medications as ordered by the physician could have resulted in non-efficacious treatment.
 12. On or about November 5, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent failed to correctly administer Humulin 70/30, twenty (20) units of insulin, as ordered, to Patient Medical Record Number 923416.

The Pharmacy had not dispensed Humulin 70/30 twenty (20) units for administration to the patient and therefore the medication was not available to be administered. Instead, Respondent administered Humalog and Humalin R which were in the patient's medication drawer. Further, Respondent failed to check the insulin dosage with another nurse, as required. Respondent's conduct was likely to injure the patient in that failure to administer medications as ordered by the physician could have resulted in non-efficacious treatment and adverse reactions including altered glucose levels.

13. On or about December 24, 2008, while employed as a Licensed Vocational Nurse with Providence Depaul Center, Waco, Texas, Respondent failed to correctly identify Patient Medical Record Number 906370, and then administered, in error, Vistaril fifty (50) milligrams and Thorazine (anti-psychotic) fifty (50) milligrams, without a physician's order. Respondent's conduct was likely to injure the patient in that administration of medications could have resulted in adverse reactions including seizures, sedation, orthostatic hypotension, aplastic anemia, and neuroleptic malignant syndrome.
14. On or about February 3, 2009, while employed with Providence Health Center, Waco, Texas, Respondent failed to clarify physician orders when the Medication Administration Record of Patient Medical Record Number 923092 indicated that the anti-hypertensive medication, Catapres 0.1 mg was to be administered at 0600 and again at 0700. The 0700 dose was a pharmacy entry error. Catapres was ordered to be administered every six (6) hours and Respondent administered two (2) doses one hour apart. Respondent's conduct was likely to injure the patient in that failure to administer medications as ordered by the physician could have resulted in adverse reactions including hypotension, dizziness, bradycardia and severe rebound hypertension.
15. In response to Finding of Fact Numbers Seven (7) through Thirteen (13) Respondent states that in 1999 her husband was diagnosed with cancer and died November 1999. The next two years she battled depression and multiple financial disasters. "Please consider this as you examine my history as a nurse. I continue to be a caring person." Respondent denies giving Catapres 0.1 milligrams to Patient Medical Record Number 923092 at 0600 and again at 0700, on February 3, 2009, stating that "The first dose was wasted (contaminated) or more likely a new admit, not in the computer system but needed the clonidine (Catapres) NOW. My computer skills are minimal to my sorrow."

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violations of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§217.11(1)(A),(1)(B),(1)(C),(1)(D),(1)(N)&(2)(A) and 217.12(1)(A),(1)(B),(1)(C)&(4).
