

6. At the time of the incident, Respondent was employed as a Registered Nurse with Memorial Hermann, the Woodlands, Texas, and had been in this position for one (1) year and eight (8) months.
7. On or about March 8, 2010, through March 9, 2010, while employed with Memorial Hermann in Woodlands, Texas, Respondent failed to appropriately assess, intervene, adequately document, and report regarding the new onset of confusion and restlessness exhibited by Patient Medical Record Number 39513049-0066.
8. On or about March 8, 2010, through March 9, 2010, while employed with Memorial Hermann in Woodlands, Texas, Respondent administered Dilaudid to Patient Medical Record Number 39513049-0066 without properly assessing vital signs, pain or oxygenation status. Subsequently, Patient Medical Record Number 39513049-0066 experienced respiratory and cardiac arrest.
9. In response to Findings of Fact Numbers Seven (7) and Eight (8), Respondent states: "the patient's son may have reported that his mother was becoming incoherent and he could no longer understand anything that she was saying. The patient's son may have also reported that the patient called him by another family member's name. I assessed the patient throughout the night and never saw or documented a change in mental status. Regarding the patient's low blood pressure, the patient had experienced a low blood pressure the night before after receiving Temazepam to help her sleep. The patient's blood pressure had been trending low during this hospital stay and because her blood pressure had dropped into the 80s the night before, it was reasonable for me to believe that the patient's blood pressure routinely dropped at night. Between 12:30 and 4:00 a.m., I looked in on the patient and observed her asleep. At around 4:00 a.m., I administered Dilaudid for pain in response to complaints of pain. I was unable to reassess the patient's pain because I had not been back into the patient's room due to other patient responsibilities. The patient was found unresponsive by the patient care associate at 445 and a code team was called but resuscitation efforts were unsuccessful."
