

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with East Texas Medical Center, Tyler, Texas, and had been in that position for approximately eighteen (18) years and five (5) months.
7. On or about November 1, 2013, through November 29, 2013, while employed as a Registered Nurse with East Texas Medical Center, Tyler, Texas, Respondent withdrew Hydrocodone-APAP 7.5/325mg and Hydrocodone-APAP 10/325mg from the medication dispensing system for patients but failed to document, or completely and accurately document the administration of the medications in the patients' Medication Administration Record (MAR) and/or Nurse's Notes. Respondent's conduct was likely to injure the patients, in that subsequent care givers would rely on her documentation to further medicate the patients, which could result in an overdose. Additionally, Respondent's conduct placed the hospital in violation of Chapter 481 (Controlled Substances Act) of the Texas Health and Safety Code.
8. On or about November 1, 2013, through November 29, 2013, while employed as a Registered Nurse with East Texas Medical Center, Tyler, Texas, Respondent withdrew Hydrocodone-APAP 7.5/325mg and Hydrocodone-APAP 10/325mg from the medication dispensing system for patients but failed to follow the facility's policy and procedures for wastage of any of the unused portions of the medications. Respondent's conduct left medications unaccounted for, was likely to deceive the hospital pharmacy, and placed the pharmacy in violation of Chapter 481 (Controlled Substances Act) of the Texas Health and Safety Code of the Texas Health and Safety Code.
9. On or about November 1, 2013, through November 29, 2013, while employed as a Registered Nurse with East Texas Medical Center, Tyler, Texas, Respondent misappropriated Hydrocodone-APAP 7.5/325mg and Hydrocodone-APAP 10/325mg from the facility or patients thereof, or failed to take precautions to prevent such misappropriation. Respondent's conduct was likely to defraud the facility and patients thereof of the cost of the medications.
10. In response to Findings of Fact Numbers Seven (7) through Nine (9), Respondent states she often has higher narcotic pulls due to her position as Clinical Coordinator in a large, fast-paced surgical prep and second-stage recovery unit, where she pulls medications for other staff, including nurses, physicians, and anesthesia providers, on a regular basis. Respondent states she did not pull any medications for fraudulent or dishonest purposes. She does understand that pulling medications for others is not optimal, but in her role, it was regularly done.
11. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
