BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 873842 §
issued to GAUDENCIO LOPENA QUE § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of GAUDENCIO LOPENA QUE, Registered Nurse License Number 873842, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on October 25, 2016.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from Manila Doctors College, Pasay City, Philippines on April 1, 2006. Respondent was licensed to practice professional nursing in the State of Texas on February 20, 2015.
5. Respondent's nursing employment history includes:

8/2006 - 7/2013	Intensive Care Unit Nurse	Manila Doctors Hospital Manila, Philippines
-----------------	---------------------------	--

Respondent's nursing employment history continued:

1/2014 - 1/2015	Clinical Data Specialist	HCCA Health Connections Taguig City, Philippines
2/2015 - 4/2016	Registered Nurse	The Medical Center of Plano Plano, Texas
5/2016 - Present	Unknown	

6. At the time of the incident, Respondent was employed as a Registered Nurse with The Medical Center of Plano, Plano, Texas, and had been in that position for ten (10) months.
7. On or about December 22, 2015, while employed as a Registered Nurse with The Medical Center of Plano, Plano, Texas, Respondent failed to notify the physician when he assessed that Patient Medical Record Number E000845665, a meningitis patient, had continued changes and deteriorating neurological status. Throughout the shift, Respondent assessed the patient to be incontinent and lethargic, with progressive decreased extremity mobility, sluggish pupillary response and increased pupil size. The physician was not notified of these continued changes until the oncoming shift arrived, at which point the patient was unresponsive. A Computerized Tomography (CT) scan was required and revealed extensive cerebral and cerebellar edema. Respondent's conduct was likely to injure the patient from a delay in necessary and emergent medical treatment.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that upon arriving for his shift, he was informed by the off going nurse that the patient had episodes of confusion and hallucinations during the shift. Respondent states that he was informed that the physician was aware of the episodes and that this was the new baseline for the patient. Respondent states that the patient continued to have episodes of confusion throughout the shift, and it was not until 0500 that it was noted that the patient had sluggish pupils. Respondent states that the patient was still following simple commands, and responding. Respondent states that he was tending to another patient until change of shift. Respondent states that he informed the on coming nurse of the patient status as well as the Charge Nurse. Respondent states that he was informed later that the patient was unresponsive but with stable vital signs. Respondent states that after a month the patient was discharged to a long term care facility.
