WHEREFORE, PREMISES CONSIDERED, the Texas Board of Nursing does hereby ratify and adopt the Agreed Order that was signed on the 13th day of January, 2017, by MARK DOUGLAS SHAW, Vocational Nurse License Number 181620, and said Order is final.

Effective this 14th day of February, 2017.

Katherine A. Thomas, MN, RN, FAAN
Executive Director on behalf
of said Board

7. On or about June 1, 2010, while employed as a Licensed Vocational Nurse with Paramount Rehabilitation and Healthcare Center, Pasadena, Texas, Respondent admitted to administering Alprazolam, Mirtazapine, and Clonazepam four (4) hours early to patient BP and patient BD. Respondent's conduct was likely to injure the patients in that administration of medication before the ordered time could result in the patient suffering from adverse reactions.
8. On or about June 1, 2010, while employed as a Licensed Vocational Nurse with Paramount Rehabilitation and Healthcare Center, Pasadena, Texas, Respondent failed to take precautions to prevent misappropriation of Alprazolam, Mirtazapine, and Clonazepam from the facility or patients thereof. Respondent's conduct was likely to defraud the facility and patients' of the cost of the medications.
9. On or about June 1, 2010, while employed as a Licensed Vocational Nurse with Paramount Rehabilitation and Healthcare Center, Pasadena, Texas, Respondent lacked fitness to practice nursing in that he showed signs of impaired behavior including: acting distracted, moody, and tired. Respondent's condition could have affected his ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected his ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
10. On or about June 1, 2010, while employed as a Licensed Vocational Nurse with Paramount Rehabilitation and Healthcare Center, Pasadena, Texas, Respondent engaged in the intemperate use of Benzodiazepines and Opiates in that he submitted a specimen for a drug screen that produced a positive result for Benzodiazepines and Opiates. Additionally, Respondent admitted to taking his brother's Hydrocodone and Lorazepam. Unlawful possession of Benzodiazepines and Opiates is prohibited by Chapter 481 of the Texas Health and Safety Code (Controlled Substances Act). The use of Benzodiazepines and Opiates by a Licensed Vocational Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms or changes in the patients condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patient in potential danger.
11. In response to Findings of Fact Numbers Seven (7) through Ten (10), Respondent states his father passed away in January 2010, and he became very depressed, feeling like his father's death was his fault. Respondent states the depression took over and he was unable to sleep for months. Respondent states his brother gave him some of his medication to help with sleep, which he took.
12. On or about November 9, 2012, Respondent completed a chemical dependency evaluation performed by Joyce M. Gayles, PhD, Clinical Psychologist. Dr. Gayles concludes that Respondent acknowledges that he did administer medications to patients early due to ~~"listening to the patient's family complain about the patient being agitated."~~ Dr. Gayles states that Respondent admits he was "going through problems" because his father had just passed away and Respondent was "real tired and having difficulty sleeping" which made him "seem

impaired." Respondent admitted to Dr. Gayles that at the time of the allegation he had taken his brother's medications; however, he denies misappropriating any medication from the facility. Dr. Gayles states that Respondent shows no indication of serious psychological problems at this time and that he has a low probability of a substance dependency disorder. Dr. Gayles has no recommendations at this time.

13. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
