Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 739064 §
issued to JOSE QUINONES § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of JOSE QUINONES, Registered Nurse License Number 739064, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on May 22, 2017.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from El Paso County Community College, El Paso, Texas, on December 8, 2006. Respondent was licensed to practice professional nursing in the State of Texas on March 1, 2007.
5. Respondent's nursing employment history is includes:

01/2007 - 11/2014	Charge Nurse	Providence Memorial Hospital El Paso, Texas
-------------------	--------------	--

01/2009 - Present	Transport Staff Nurse	Providence Memorial Hospital El Paso, Texas
12/2014 - Present	PICU Staff Nurse	El Paso Children's Hospital El Paso, Texas

6. On or about January 22, 2015, Respondent was issued the sanction of WARNING WITH STIPULATIONS by the Texas Board of Nursing. A copy of the Findings of Fact, Conclusions of Law, and Agreed Order dated January 22, 2015, is and incorporated, by reference, as part of this Order.
7. On or about November 3, 2014, Respondent administered oral Tylenol containing red dye instead of a Tylenol suppository to a patient in the Pediatric ICU without first obtaining a physician order to change the route of medication administration. Changing the route of medication administration exceeds the scope of a Registered Nurse's practice and is a violation of the Nursing Practice Act and Rules and Regulations and exposed the patient to a risk of harm due to allergy to an ingredient in the oral medication.
8. Mr. Quinones states that he takes full responsibility for this error and recognizes that he should have contacted the physician for a change of route before administering the medication by oral route instead of rectally. Mr. Quinones states that rectal route of Tylenol was ordered for fever or pain because of vomiting and he administered oral Tylenol as the patient was no longer vomiting and he felt that the oral route would be more comfortable for the young female child. Mr. Quinones states that the patient did not have an allergy band or any other precautionary band to alert providers to a red dye allergy and when he scanned the medication outside the room there was no warning on the Cerner system alerting of any dye allergy. Mr. Quinones states that after administering the medication, the patient's mother who was in bed with the patient who had asked for medicine for a headache to be given, informed him of a red dye allergy. Mr. Quinones immediately informed his charge nurse and called the physician and received an order for IV corticosteroid administration. The patient suffered no adverse effect and Mr. Quinones completed necessary paperwork required by the hospital to document the event to ensure that the administration of medicine and dye allergy was known to all subsequent caregivers.
9. Formal Charges were filed on September 4, 2015.
10. Formal Charges were mailed to Respondent on September 8, 2015.
