BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 500488 §
issued to DONNA GRAYSON § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of DONNA GRAYSON, Registered Nurse License Number 500488, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on January 25, 2018.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from the University of Texas at San Antonio, San Antonio, Texas on May 1, 1982. Respondent was licensed to practice professional nursing in the State of Texas on September 15, 1982.
5. Respondent's professional nursing employment history includes:

05/1982 - 05/1983	RN	Bexar County Hospital San Antonio, Texas
-------------------	----	---

Respondent's professional nursing employment history continued:

05/1983 - 08/1989	DON	ARA Living Centers San Antonio, Texas
08/1989 - 01/1998	Administrator	Town and Country Manor Boerne, Texas
02/1998 - 02/1999	Unknown	
03/1999 - 04/2000	DON	Sunrise Health and Rehab Center Austin, Texas
03/2000 - 05/2010	Administrator	Leon Valley Care Center San Antonio, Texas
01/2005 - 01/2006	RN	MedTrust San Antonio, Texas
01/2006 - 03/2016	RN	Christus Santa Rosa San Antonio, Texas
08/2013 - 03/2016	RN	CSR Emergency Center San Antonio, Texas
04/2016 - 05/2016	Unknown	
06/2016 - Unknown	RN	Kingsland Health Care Center Kingsland, Texas
05/2017 - Present	RN	Granite Mesa Nursing Center Marble Falls, Texas

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Christus Santa Rosa, San Antonio, Texas, and had been in that position for approximately ten (10) years and two (2) months.
7. On or about March 7, 2016, while employed with Christus Santa Rosa, San Antonio, Texas, Respondent was observed sleeping in patient rooms on two (2) separate occasions. Respondent's conduct could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.

8. On or about March 7, 2016, while employed with Christus Santa Rosa, San Antonio, Texas, Respondent withdrew Morphine from the Pyxis for patients in excess frequency and/or dosage of the physician's order in that the order was for Morphine 2mg, which was available, but Respondent removed the Morphine 4mg dose. Respondent's conduct was likely to injure the patient in that the administration of Morphine in excess frequency and/or dosage of the physician's order could result in the patient suffering from adverse reactions.
9. In response to Finding of Fact Number Seven (7), Respondent admits to sleeping over the last ten (10) years and each occasion she was ill and told another nurse to get her if any patients came in. She states this was done only in an emergency. Regarding Finding of Fact Number (8), Respondent states she doesn't remember this incident, but states there would only be two reasons as far as why she would take more than what was ordered. Those reasons were if there wasn't a 2 mg available or if she thought the patient would need more than two and that it would be ordered by the doctor. She states she had done this before on a separate occasion.
10. On February 9, 2017, Respondent underwent a chemical dependency evaluation with Dr. Sean Connolly. His findings were that Respondent does not show any evidence, based on self-report and objective data, of having a substance abuse disorder at this time. She readily admits she is a recovering alcoholic. The completion of a treatment program does not seem warranted at this time. Dr. Connolly recommends that she avoid working at night, rotating shifts, on-call assignments, or in critical care units. Also, she should avoid administering controlled substances and other substances that require appropriate documentation. Dr. Connolly also recommends that she have random occasional drug screening. For a determination of continued competence in nursing, Dr. Connolly recommends the Respondent consider a neuropsychological evaluation to assess any residual effects from a traumatic brain injury the Respondent sustained in a motor vehicle accident.
11. Respondent underwent a neuropsychological evaluation with Dr. Sean Connolly. Dr. Connolly indicates that subsequent to a motor vehicle accident, Respondent sustained a concussion, with a reported subdural hematoma. Dr. Connolly states that the evaluation data indicate good recovery and the absence of any significant neurocognitive deficits. Based on self-report and the objective data of the assessment, some very mild neurocognitive deficits, primarily associated with the right hemisphere. Dr. Connolly states the Respondent has moderate difficulties with visual memory. Dr. Connolly recommends that the Respondent continue in her career, and that she focus on the least stressful environment, and avoid high-stress nursing assignments, such as the ER, ICU, or similar environment where there is a need for quick reaction time, flexibility in thinking and focus, rapid shift of focus, attentiveness to several details at one time, and higher level analytical skills. The assessment data indicates the Respondent would be quite functional in a position and environment that requires structure, routine, and repetition. Within these boundaries she does appear to have the neurocognitive resources to practice nursing with skill and safety for patients.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §217.11(1)(A),(1)(B),(1)(C)&(3) and 22 TEX. ADMIN. CODE §217.12(1)(A),(1)(B),(1)(E),(4),(5)&(11)(B).
4. The evidence received is sufficient cause pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 500488, heretofore issued to DONNA GRAYSON, including revocation of Respondent's license(s) to practice nursing in the State of Texas.
5. Pursuant to Section 301.463(d), Texas Occupations Code, this Agreed Order is a settlement agreement under Rule 408, Texas Rules of Evidence, in civil or criminal litigation.
