BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 746695 §
issued to SARAH FOURNIER § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of SARAH FOURNIER, Registered Nurse License Number 746695, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on October 5, 2018.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from Norfolk State University, Norfolk, Virginia, on May 10, 2003. Respondent was licensed to practice professional nursing in the State of Texas on September 10, 2007.
5. Respondent's professional nursing employment history includes:

05/03 - 05/06	RN	Sentara Healthcare Norfolk, Virginia
---------------	----	---

Respondent's professional nursing employment history continued:

06/06 - 09/09	Unknown	
10/09 - 05/11	RN	St. Luke's Hospital Sugar Land, Texas
10/09 - Present	RN	Timeless Plastic Surgery Sugar Land, Texas

6. At the time of the initial incident, Respondent was employed as a Registered Nurse (RN) with Timeless Plastic Surgery, Sugar Land, Texas, and had been in that position for seven (7) years and eight (8) months.
7. On or about June 7, 2017, while employed with Timeless Plastic Surgery, Sugar Land, Texas, Respondent failed to perform a test spot when implementing a minor change in the treatment parameters for a patient's third laser treatment, which was recommended by the guidelines adopted by the facility and laser's manufacturer.
8. In response to Finding of Fact Number Seven (7), Respondent states that after the patient's first two treatments, she expressed frustration at the minimal results. Based on these patient complaints and her documented lack of clinical response to treatment, Respondent states she consulted with the supervising physician prior to seeing Patient CN to discuss increasing the treatment settings on the laser. Respondent states the physician approved and authorized a minor increase in settings on the laser within the treatment parameters contained in the laser guidelines for the patient's skin type. Respondent further states an ice-pack was not provided because the patient did not request one and ice is contraindicated following laser treatment. Respondent states when the patient returned the following day for follow-up, she discussed Patient CN's clinical presentation, patient history, concerns and photos with the supervising physician in charge that day, who has extensive experience with burn wounds. Respondent states the physician advised CN to apply triple antibiotic ointment, avoid friction/trauma to the areas, as well as avoid sun exposure, and to follow up with the clinic the following Monday.
