§

AGREED ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of JULIANA MORENO SISMON COOLEY, Registered Nurse License Number 898828, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on August 29, 2019.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from Northwestern Oklahoma State University, Enid, Oklahoma, on May 9, 2015. Respondent was licensed to practice professional nursing in the State of Texas on May 17, 2016.
5. Respondent's nursing employment history includes:

5/2016 – 11/2017

Registered Nurse

DeTar Helthcare System
Victoria, Texas

Respondent's nursing employment history continued:

12/2017 - Present	Emergency Department Staff Nurse	Cuero Regional Hospital Cuero, Texas
-------------------	-------------------------------------	---

6. On or about May 9, 2017, Respondent's license to practice nursing in the State of Texas was Suspended with the Suspension stayed and Respondent was placed on probation through an Order of the Board. On or about August 9, 2019, Respondent successfully completed the terms of the Order. A copy of the May 9, 2017, Order is attached and incorporated herein by reference as part of this Agreed Order.
7. At the time of the initial incident, Respondent was employed as a Emergency Department Staff Nurse with Cuero Regional Hospital, Cuero, Texas, and had been in that position for one (1) year and one (1) month.
8. On or about January 28, 2019, while employed as an Emergency Department (ED) Staff Nurse with Cuero Regional Hospital, Cuero, Texas, Respondent failed to confirm the dose of Epinephrine when the ED physician instructed her to administer the whole vial of a pre-filled 10 ml syringe of Epinephrine containing, 1 mg of Epinephrine, during a pediatric code. Consequently, Respondent administered an adult dose instead of the weight based pediatric dose to Patient Medical Record Number 13648985, for a total of six (6) doses, during an unsuccessful code. The aforementioned patient was 9 months old, with a history of premature birth at 24 weeks with intracranial hemorrhage, VP shunt, cerebral palsy and seizure disorder who was brought in by EMS with CPR in progress in asystole, with gray and cool skin, and pupils were fixed and dilated. Respondent's conduct was likely to injure the patient from adverse effects of an overdose of Epinephrine including hypertension and arrhythmias, and may have contributed to the patient's demise.
9. In response to Finding of Fact Number Eight (8), Respondent states she deeply regrets the loss of the patient, however believes she provided care to the best of her ability, abiding by the instructions provided by her supervising physicians. Respondent indicates that she responded to a code blue infant undergoing CPR. Respondent relates she had never previously managed a code blue infant, and informed another Nurse of her discomfort, and assumed that he would lead the code and administer medications as he had more experience. Respondent states that because an ED physician ordered the drug to be given, and she was one of the ED nurses, she felt it was her responsibility to administer it since no one else stepped up to the role. Respondent explains the ICU Manager handed her the Epinephrine, and in that moment she trusted the instructions of the physician and the team of nurses with more experience in the area, but unfortunately her team was frozen, terrified and worried. Respondent adds as she held the Epinephrine in her hands she asked two other nurses how to administer the Epinephrine and how much to administer, and both nurses replied "I don't know." Respondent states she made eye contact, and asked the doctor "do you want me to give the entire vial? The whole thing?" and he replied "Yes" of the six (6) times the drug was given. Respondent states she believes she failed in accepting a task she

wasn't completely comfortable with, however she followed her doctor's orders. Respondent adds that she now understands she must verbalize and deny any assignment she's not completely comfortable with.
