- 7. On or about March 28, 2017, while employed as a Registered Nurse with Southwest Correctional Medical Group, San Diego, California, and assigned to Wichita County Jail, Wichita, Texas, Respondent falsely documented physical examination and health appraisal information for Patient AI 3872. Respondent documented that all entries were within normal limits, however the patient had an extensive medical and mental health history, including traumatic brain injury, alcohol withdrawal, seizures, suicide attempts, and post-traumatic stress disorder with prior mental health care provided at another facility. Respondent's conduct resulted in inaccurate medical records, and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provide further patient care.

- 8. On or about December 11, 2017, while employed as a Registered Nurse with Southwest Correctional Medical Group, San Diego, California, and assigned to Wichita County Jail, Wichita, Texas, Respondent falsely documented physical examination and health appraisal information for Patient AI 4651. Respondent documented that all entries were within normal limits and the patient denied medical history and mental health history, however the following day the patient reported extensive medical information when interviewed by staff. Respondent's conduct resulted in inaccurate medical records, and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provide further patient care.
- 9. On or about January 11, 2018, while employed as a Registered Nurse with Southwest Correctional Medical Group, San Diego, California, and assigned to Wichita County Jail, Wichita, Texas, Respondent falsely documented physical examination and health appraisal information for Patient AI 4775, Patient AI 4905, Patient AI 4908, Patient AI 4962, Patient AI 5033, and Patient AI 5147, who were not actually examined or seen. Respondent's conduct resulted in inaccurate medical records, and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provide further patient care.
- 10. On or about January 11, 2018, while employed as a Registered Nurse with Southwest Correctional Medical Group, San Diego, California, and assigned to Wichita County Jail, Wichita, Texas, Respondent falsely documented vital signs and weights in the medical records of Patient AI 4775, Patient AI 4905, Patient AI 4908, Patient AI 4962, Patient AI 5015, Patient AI 5033, and Patient AI 5147. Respondent's conduct resulted in inaccurate medical records, and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provide further patient care.
- 11. On or about March 26, 2018 through March 27, 2018, while employed as a Registered Nurse with Southwest Correctional Medical Group, San Diego, California, and assigned to Wichita County Jail, Wichita, Texas, Respondent failed to document physical examination and health appraisal information for Patient AI 5772, Patient AI 5986, Patient AI 6538, Patient AI 6574, Patient AI 6604, Patient AI 6684, Patient AI 6695, Patient AI 6764, Patient AI 6833, and Patient AI 6912. Respondent's conduct resulted in incomplete medical records, and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provide further patient care.
- 12. In response to Finding of Fact Number Seven (7) through Eleven (11), Respondent maintains that the history and physical information inputted by her for the patients at issue accurately and properly reflected the information reported to her by the individual patient. Likewise, Respondent denies falsifying patient vital signs. She included only vital signs done at the time of the history and physical, unless the patient refused, in which case it was left blank. The facility lacked written procedures for completing the patient history and physicals and Respondent relied on the limited training and instruction received from her immediate supervisor. Respondent was on medical leave for a broken foot from March 28, 2018 to April 15, 2018. If there were incomplete assessments from

immediately prior to Respondent taking leave, they were not completed because they had not been unlocked for Respondent to complete prior to taking leave.
