BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of	§	AGREED ORDER
Registered Nurse License Number 888863	§	
issued to EMILY MARIE CRUSE	§	
	§	

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of EMILY MARIE CRUSE, Registered Nurse License Number 888863, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on September 10, 2020.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from Baptist School of Health Professionals, San Antonio, Texas, on May 1, 2015. Respondent was licensed to practice professional nursing in the State of Texas on October 27, 2015.
5. Respondent's nursing employment history includes:

10/2015 – 1/2016	Unknown
------------------	---------

Respondent's nursing employment history continued:

2/2016- 10/2019	Registered Nurse	Midland Memorial Hospital Midland, Texas
3/2018-5/2018	Registered Nurse	Midland Women's Clinic Midland, Texas
11/2019	Unknown	
12/2019-1/2020	Registered Nurse	Angels of Care Houston, Texas
1/2020-2/2020	Registered Nurse	Pediatric Home Healthcare Houston, Texas
3/2020- Present	Unknown	

6. At the time of the incident, Respondent was employed as a Registered Nurse with Pediatric Home Healthcare, Houston, Texas, and had been in that position for one (1) month.
7. On or about January 19, 2020, through February 9, 2020, while employed as a Registered Nurse with Pediatric Home Healthcare, Houston, Texas, Respondent incorrectly administered Sympazan forty (40) milligrams to Patient JC on several occasions, though the ordered dose was for twenty (20) milligrams. Specifically, when the patient's supply was noted to be low before time for a refill, Respondent was asked about the low supply by the patient's mother and Respondent replied that she always used two (2) strips. The strips were twenty (20) milligrams each. Additionally, Respondent failed to correctly document her administrations of the medication in the medication administration record. Respondent documented the ordered dose, and not the actual dose that she administered. Respondent's conduct exposed the patient to a risk of harm from unnecessary administration of extra doses of medication without a physician's order.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that the patient had a scheduled dose of Sympazan twenty (20) milligrams at 0300 nightly. Respondent states that from the start of her training in December, each biofilm was 10 milligrams in strength, so (2) two strips were administered. Respondent states that while preparing the patient's medications, she found two (2) individual strips in their foil packaging attached to each other with the patient's name on it. Respondent states that at the time she was going through her routine and believed these strips were the same as the strips the patient had been using since December. Respondent states that she erroneously believed these strips were ten (10) milligrams each and she did not notice that the concentration of the medication had changed. Respondent states that she did not witness any change in the patient's baseline behavior or vitals at this point. Respondent states that

in the morning, she was notified by the patient's mother via text message inquiring about a missing Sympazan twenty (20) milligrams biofilm strip. Respondent states that the Mother reported that the patient had two (2) of the biofilm strips left where his daily medications were kept. Respondent states that she replied that she used both of the strips. Respondent states that the mother informed her that both strips left were twenty (20) milligrams doses each and that the box they had been using was two to three weeks old. Respondent states that she acknowledges her medication error and accepts responsibility for her error.
