7. On or about October 31, 2019, while employed as a Registered Nurse with CHRISTUS Trinity Mother Frances Hospital, Tyler, Texas, Respondent misappropriated medications belonging to the facility and patients thereof, or failed to take precautions to prevent such misappropriation in that Ketamine, Dexamethasone, Diphenhydramine, and Prochlorperazine were found in her backpack. Unlawful possession of opiates, hydromorphone and morphine is prohibited by Chapter 481 (Controlled Substances Act) of the Texas Health & Safety Code. The use of opiates, hydromorphone and morphine by a Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms, or changes in a patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing a patient in potential danger.

medications in the patient's Medication Administration Record (MAR) and/or nurses' notes. Respondent's conduct was likely to injure the patient, in that subsequent care givers would rely on her documentation to further medicate the patients, which could result in an overdose. Additionally, Respondent's conduct placed the hospital in violation of Chapter 481 (Controlled Substances Act) of the Texas Health and Safety Code.

Unlawful possession of fentanyl and morphine is prohibited by Chapter 481 (Controlled Substances Act) of the Texas Health & Safety Code. The use of fentanyl and morphine by a Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms, or changes in a patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing a patient in potential danger.
14. Respondent's compliance with the terms of a Board approved peer assistance program should be sufficient to protect patients and the public.
