**ORDER OF TEMPORARY SUSPENSION**

TO: Kerry Curtis  
10610 Morado Circle #1324  
Austin, TX 78759

A public meeting of the Texas Board of Nursing was held on September 8, 2021 at 333 Guadalupe, Suite 3-460, Austin, Texas, in which the Temporary Suspension of Permanent Registered Nurse License Number 734585, issued to KERRY CURTIS was considered pursuant to Section 301.455, TEXAS OCCUPATIONS CODE. Staff of the Texas Board of Nursing appeared and presented evidence and information concerning the conduct of KERRY CURTIS and whether her continued practice as a nurse would constitute a continuing and imminent threat to the public welfare.

After review and due consideration of the evidence and information presented, the Board finds that the following charges are substantiated:

**CHARGE I.**

On or about May 21, 2021, while licensed as a Registered Nurse and working at Parsons House Austin, Austin, Texas, Respondent misappropriated a one (1) 30mL bottle of Morphine belonging to resident R.B. and the facility. Subsequently, when she was confronted by the Director, Respondent admitted to taking the vial of Morphine, and handed the vial with a broken seal to her. Furthermore, in plain view, there was a syringe with clear liquid substance on the kitchen counter

top. Respondent's conduct was likely to defraud the facility and patient thereof of the cost of the medication.

The above action constitutes grounds for disciplinary action in accordance with Section 301.452(b)(10), (12) & (13) (effective through 8/31/2021), Texas Occupations Code, and is a violation of 22 TEX. ADMIN. CODE §217.11(1)(A), (1)(B) and §217.12(1)(A), (1)(B), (4), (5), (6)(G), (8), (10)(E) & (11)(B).

The Texas Board of Nursing further finds that, given the nature of the charges concerning her fitness to practice, the continued practice of nursing by KERRY CURTIS constitutes a continuing and imminent threat to public welfare and that the temporary suspension of Permanent Registered Nurse License Number 734585, is justified pursuant to Section 301.455, TEXAS OCCUPATIONS CODE.

NOW, THEREFORE, IT IS ORDERED that Permanent Registered Nurse License Number 734585, issued to KERRY CURTIS, to practice nursing in the State of Texas be hereby SUSPENDED IMMEDIATELY in accordance with Section 301.455, TEXAS OCCUPATIONS CODE.

This Order SHALL be applicable to RESPONDENT'S nurse licensure compact privileges, if any, to practice nursing in the State of Texas. Further, RESPONDENT'S license(s) will be designated "single state" as applicable and RESPONDENT may not work outside the State of Texas in another nurse licensure compact party state using a Texas compact license.

IT IS FURTHER ORDERED that a probable cause hearing be conducted in accordance with Section 301.455(c) not later than seventeen (17) days following the date of the

entry of this order, and a final hearing on the matter be conducted in accordance with 301.455(d) not later than the 61<sup>st</sup> day following the date of the entry of this order.

Entered this 8<sup>th</sup> day of September, 2021.

### **FORMAL CHARGES**

This is a disciplinary proceeding under Section 301.452(b), Texas Occupations Code. Respondent, KERRY CURTIS, is a Registered Nurse holding license number 734585, which is in current status at the time of this pleading.

Written notice of the facts and conduct alleged to warrant adverse licensure action was sent to Respondent at Respondent's address of record, and Respondent was given opportunity to show compliance with all requirements of the law for retention of the license, prior to commencement of this proceeding.

### **CHARGE I.**

On or about May 21, 2021, while licensed as a Registered Nurse and working at Parsons House Austin, Austin, Texas, Respondent misappropriated a one (1) 30mL bottle of Morphine belonging to resident R.B. and the facility. Subsequently, when she was confronted by the Director, Respondent admitted to taking the vial of Morphine, and handed the vial with a broken seal to her. Furthermore, in plain view, there was a syringe with clear liquid substance on the kitchen counter top. Respondent's conduct was likely to defraud the facility and patient thereof of the cost of the medication.

Respondent was issued an Enforced Suspension Order by the Texas Board of Nursing ("Board") on February 8, 2011. In that order, Respondent admitted to a substance abuse problem, and the Board found that Respondent's nursing care created a serious risk to public health and safety, because she had misappropriated controlled substances, lacked fitness to practice nursing, and intemperately used alcohol and drugs on several occasions. To date, Respondent has not completed the terms of this order. Thus, not only was Respondent's conduct likely to defraud, but it also demonstrates a continuing pattern of misappropriation for personal use, calls into question the Respondent's current fitness to practice nursing with reasonable skill and safety, and presents a continuing and imminent threat to public welfare.

The above action constitutes grounds for disciplinary action in accordance with Section 301.452(b)(10), (12) & (13) (effective through 8/31/2021), Texas Occupations Code, and is a violation of 22 TEX. ADMIN. CODE §217.11(1)(A), (1)(B) and §217.12(1)(A), (1)(B), (4), (5), (6)(G), (8), (10)(E) & (11)(B).

A copy of the Order dated February 8, 2011 is attached and incorporated, by reference as part of this pleading.

NOTICE IS GIVEN that staff will present evidence in support of the recommended disposition of up to, and including, revocation of Respondent's license(s) and/or privilege(s) to practice nursing in the State of Texas pursuant to the Nursing Practice Act, Chapter 301, Texas Occupations Code and the Board's rules, 22 TEX. ADMIN. CODE §§ 213.27 - 213.33.

NOTICE IS GIVEN that all statutes and rules cited in these Charges are incorporated as part of this pleading and can be found at the Board's website, [www.bon.texas.gov](http://www.bon.texas.gov).

NOTICE IS GIVEN that, based on the Formal Charges, the Board will rely on adopted policies related to Behavior Involving Fraud, Theft, and Deception, which can be found under the "Discipline & Complaints; Board Policies & Guidelines" section of the Board's website, [www.bon.texas.gov](http://www.bon.texas.gov).

NOTICE IS GIVEN that, based on the Formal Charges, the Board will rely on the Disciplinary Matrix, located at 22 TEX. ADMIN. CODE §213.33(b), which can be found under the "Discipline & Complaints; Board Policies & Guidelines" section of the Board's website, [www.bon.texas.gov](http://www.bon.texas.gov).

NOTICE IS ALSO GIVEN that Respondent's past disciplinary history, as set out below and described in the Order(s) which is/are attached and incorporated by reference as part of these charges, will be offered in support of the disposition recommended by staff: Order(s) of the Board dated February 8, 2011.

In the Matter of Registered Nurse                   §        AGREED  
License Number 734585                               §  
issued to KERRY CURTIS                             §        ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of KERRY CURTIS, Registered Nurse License Number 734585, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(9),(10),(12)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on November 18, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from the University of Texas, Austin, Texas, on August 14, 2006. Respondent was licensed to practice professional nursing in the State of Texas on October 12, 2006.
5. Respondent's professional nursing employment history includes:

10/2006 - 08/2008	RN	St. David's South Austin Hospital Austin, Texas
-------------------	----	--

Respondent's professional nursing employment history continued:

09/2008 - 12/2008	RN	Seton Medical Center Austin, Texas
12/2009 - 02/2010	RN	The Hospital at Westlake Medical Center Austin, Texas
03/2010 - 08/2010	RN	Austin Neurocare Austin, Texas
08/2010 - Present	Employment history unknown.	

6. At the time of the initial incidents, Respondent was employed as a Registered Nurse with St. David's Hospital, Austin, Texas, and has been in this position for one (1) year and ten (10) months.
7. On or about August 17, 2008, while employed as a Registered Nurse with St. David's Hospital, Austin, Texas, Respondent administered seven (7) units of insulin to Patient K00106181097 instead of three (3) units as ordered by the physician. Subsequently, the patient's blood glucose level dropped to twenty-nine (29), and she was confused and shaking. Respondent's conduct was likely to injure the patient in that the administration of insulin in excess dosage of the physician's order could result in the patient suffering from adverse reactions.
8. On or about August 17, 2008, through August 21, 2008 while employed as a Registered Nurse with St. David's Hospital, Austin, Texas, Respondent misappropriated Hydrocodone belonging to the facility and patients thereof, or failed to take precautions to prevent such misappropriation. Respondent's conduct was likely to defraud the facility and patients of the cost of medications.
9. On or about January 7, 2009 through February 3, 2009, while employed as a Registered Nurse with the Hospital at Westlake Medical Center, Austin, Texas, Respondent withdrew Norco, Percocet, Dilaudid, Morphine, Fentanyl, and Pregabalin from the Medication Dispensing System (Omniceil) for patients but failed to document, or accurately document the administration of the medications in the patients' Medication Administration Records and/or nurse's notes. Respondent's conduct was likely to injure the patients in that subsequent care givers would rely on her documentation to further medicate the patients which could result in an overdose.
10. On or about January 7, 2009 through February 3, 2009, while employed as a Registered Nurse with the Hospital at Westlake Medical Center, Austin, Texas, Respondent withdrew Acetaminophen/Codcine and Phenergan from the Medication Dispensing System (Omniceil)

for patients but failed to follow the facility's policy and procedure for wastage of any of the unused portions of the medications. Respondent's conduct was likely to deceive the hospital pharmacy and placed them in violation of Chapter 481 of the Texas Health and Safety Code (controlled Substances Act).

11. On or about January 7, 2009 through February 3, 2009, while employed as a Registered Nurse with the Hospital at Westlake Medical Center, Austin, Texas, Respondent misappropriated Hydrocodone/Acetaminophen, Acetaminophen/Codeine, Dilaudid, Morphine, Norco and Phenergan belonging to the facility and patients thereof, or failed to take precautions to prevent such misappropriation. Respondent's conduct was likely to defraud the facility and patients of the cost of medications.
12. On or about January 7, 2009 through February 3, 2009, while employed as a Registered Nurse with the Hospital at Westlake Medical Center, Austin, Texas, Respondent lacked fitness to practice professional nursing, in that she admitted that she had a substance abuse problem. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgements, and decisions regarding patient care, thereby placing the patients in potential danger
13. On or about May 19, 2009, Respondent engaged in the intemperate use of Hydrocodone, in that she produced a specimen for a random drug screen requested by the Texas Peer Assistance Program for Nurses (TPAPN), which resulted positive for Hydrocodone. Additionally, she admitted to taking Hydrocodone from an old prescription. The use of Hydrocodone by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to make rational, accurate and appropriate assessments, judgements, and decisions regarding patient care, thereby placing the patient in potential danger.
14. On or about August 17, 2009, Respondent engaged in the intemperate use of Morphine and Tramadol, in that she produced a specimen for a random drug screen requested by the Texas Peer Assistance Program for Nurses (TPAPN), which resulted positive for Morphine and Tramadol. The use of Morphine and Tramadol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to make rational, accurate and appropriate assessments, judgements, and decisions regarding patient care, thereby placing the patient in potential danger.
15. On or about September 10, 2009, Respondent engaged in the intemperate use of Oxazepam, Morphine and Propoxyphene, in that she produced a specimen for a random drug screen requested by the Texas Peer Assistance Program for Nurses (TPAPN), which resulted positive for Oxazepam, Morphine and Propoxyphene. The use of Oxazepam, Morphine and Propoxyphene by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to make rational, accurate and appropriate assessments, judgements, and decisions regarding patient care, thereby placing the patient in potential danger.

16. On or about May 12, 2010, while employed as a Registered Nurse with Austin Neurocare, Austin, Texas, Respondent engaged in the intemperate use of Alcohol, in that she produced a specimen for a random drug screen, requested by the Texas Peer Assistance Program for Nurses (TPAPN), which resulted positive for Alcohol. The use of Alcohol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to make rational, accurate and appropriate assessments, judgements, and decisions regarding patient care, thereby placing the patient in potential danger.
17. In response to Findings of Fact Numbers Seven (7) through Sixteen (16), Respondent states: "I am entering inpatient treatment at Austin Recovery on December 30, 2009. There are false allegations on the insulin incident. On July 25, 2008, I was hospitalized and diagnosed with multiple sclerosis. When I returned to work at St. David's South Austin after taking sick leave, and was terminated on August 21, 2008, for something I did not do. I believe I was terminated because of my diagnosis. I admit that my employment at Westlake was a disaster. I am in the TPAPN program and my case manager is Becky Drozd. I am recovering from my addiction to Opiates and Benzodiazepines. I have been sober for three months and have had negative drug screens since August 17, 2009. I know that I messed up really bad. I will never divert medication again. I am entering treatment so that I can gain tools to keep me sober."
18. Respondent's last known date of sobriety is May 10, 2010, as indicated in Finding of Fact Number Sixteen (16).
19. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances.

#### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
