§  
§

AGREED ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of EMILY RACHEL KEOWN, Registered Nurse License Number 815420, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10),(12)&(13), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on December 4, 2020.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from Lone Star College-Cyfair, Cypress, Texas, on December 15, 2011. Respondent was licensed to practice professional nursing in the State of Texas on February 28, 2012.
5. Respondent's nursing employment history includes:

1/2012 – 2/2020	Registered Nurse	CHRISTUS Trinity Mother Frances Hospital Tyler, Texas
-----------------	------------------	--

Respondent's nursing employment history continued:

3/2020 - Present      Unknown

6. At the time of the incident, Respondent was employed as a Registered Nurse with CHRISTUS Trinity Mother Frances Hospital, Tyler, Texas, and had been in that position for eight (8) years and one (1) month.
7. On or about February 14, 2020, while employed as a Registered Nurse with CHRISTUS Trinity Mother Frances Hospital, Tyler, Texas, Respondent failed to accurately and completely document assessments and interventions performed on Patient N.P. In addition, Respondent exhibited a lack of fitness to practice in that she admitted to dozing at the nurse's station for ten to fifteen minutes. Respondent's conduct resulted in an inaccurate and incomplete medical record and was likely to injure the patient in that subsequent caregivers would not have accurate and complete information on which to base their decisions for further care. Additionally, Respondent's conduct could have affected her ability to recognize subtle signs, symptoms, or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that she is unaware of how thorough her charting was. Respondent states that she was at the patient's bedside for the majority of the night performing interventions. Respondent states that she placed her head in her hands for a few minutes at the nurse's station, dozing, before she sat up after ten to fifteen minutes and started charting.
