BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of § AGREED ORDER  
Registered Nurse License Number 885504 §  
issued to DREW PIERCE §  
§

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of DREW PIERCE, Registered Nurse License Number 885504, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on August 4, 2021.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from University of Texas at Tyler, Tyler, Texas, on August 7, 2015. Respondent was licensed to practice professional nursing in the State of Texas on August 18, 2015.
5. Respondent's nursing employment history includes:

8/2015 – 2/2021	Registered Nurse	Christus Trinity Mother Frances Health System Tyler, Texas
-----------------	------------------	--

Respondent's nursing employment history continued:

3/2021 – Present                      Unknown

6. At the time of the incident, Respondent was employed as a Registered Nurse with Christus Trinity Mother Frances Health System, Tyler, Texas, and had been in that position for five (5) years and six (6) months
7. On or about February 2, 2021, while employed as a Registered Nurse with Christus Trinity Mother Frances Health System, Tyler, Texas, Respondent inappropriately administered an unknown dosage of Morphine to Patient 096207379. Specifically, the patient had a two (2) milligram dose of morphine ordered. Respondent drew up four (4) milligrams and administered more than the ordered two (2) milligram dose. When the patient notified management of the increased dosage, Respondent stated that he administered more than the ordered two (2) milligrams, but less than the four (4) milligrams. Additionally, Respondent falsely documented the actual dosage of Morphine that he administered to the patient in the patient's medical record. Respondent documented that he administered two (2) milligrams and wasted (2) milligrams. Subsequently, a Rapid Response was called the following morning for the patient when she became hypotensive. Respondent's conduct resulted in an incomplete medical record and was likely to injure the patient from an increased dosage of pain medication given without the benefit of physician's expertise.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that he knowingly administered three (3) milligrams of morphine, not two (2) milligrams as prescribed. Respondent states that this was an error in judgement. Respondent states that the patient came up from the post op unit shortly after shift change. Respondent states that he looked briefly at the patient's orders before she was transferred up to the floor and saw that she had been receiving a lot of pain medications and that four (4) milligrams was ordered for her. Respondent states that they had a computer network issue on the unit that evening so to withdraw any medications, he had to do a manual override on the Pyxis. Respondent states that the patient requested pain medications and he went to pull some of her ordered morphine. Respondent states that he remembered it being four (4) milligrams, so that was what he pulled from the Pyxis. Respondent states that when he scanned the medication, he got a pop-up that the orders had changed, and now it was ordered as two (2) milligrams. Respondent states that the patient stated how much pain she was in and how the reduced dosage would be insufficient. Respondent states that the patient had been tolerating four (4) milligram doses all evening and her vitals were good. Respondent states that he then made the bad decision and asked if she would like a "little more" than the ordered dose. Respondent states that with the patient's full knowledge and consent, he proceeded to draw up three (3) milligrams, and administered it to the patient. Respondent states that he then again made a bad decision and wasted the remaining one (1) milligram of morphine and documented it as two (2) milligrams. Respondent states that he was questioned and he admitted his error in professional judgement. Respondent states that he

should have not deviated from the order and he had never done so before and certainly will never do so again.
