

Respondent's nursing employment history continued:

7/2020 – 1/2021	Vocational Nurse	Hendrick Medical Center Abilene, Texas
2/2021 – Present	Vocational Nurse	Abilene State Supported Living Center Abilene, Texas

6. At the time of the initial incident, Respondent was employed as a Vocational Nurse with Hendrick Medical Center, Abilene, Texas, and had been in that position for six (6) years.
7. On or about January 23, 2021, while employed as a Vocational Nurse with Hendrick Medical Center, Abilene, Texas, Respondent failed to use the emergency call button, code button, or his locator at 0610 when he was told by the technical assistant that Patient LD was found unresponsive. Instead, Respondent left the room to find his computer to determine the patient's code status. Subsequently, Respondent then waited until the charge nurse was available to ask what to do, which caused a 5-minute delay in intervention. Respondent's conduct was likely to cause injury or death in causing a delay in resuscitation efforts to the patient who subsequently died.
8. In response to Finding of Fact Number Seven (7), Respondent states, two other Hendrick employees had seen the patient before him and neither had pressed the code button. Respondent states he was with another patient when a nurse's aide notified him of the patient's status. Respondent states he immediately went to check that patient's pulse and breathing. As a nurse, Respondent indicates he had never been in a code and had only been a nurse for six (6) months, and further states that on the oncology floor most patients are DNR and for some reason had in his mind that this patient was a DNR. Respondent states he left the patient and looked for the charge nurse, in a partial state of shock, unclear what to do. The charge nurse informed patient was a full code, and Respondent states he returned to the room and initiated CPR.
