BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of § AGREED ORDER  
Registered Nurse License Number 845645 §  
issued to PAMELA DAWN LUMPKINS §  
§

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of PAMELA DAWN LUMPKINS, Registered Nurse License Number 845645, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on November 16, 2020.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from Galveston College, Galveston, Texas, on May 1, 2013. Respondent was licensed to practice professional nursing in the State of Texas on October 8, 2013.
5. Respondent's nursing employment history includes:

10/2013 – 11/2014

Registered Nurse

Dr. Tattoff  
Houston, Texas

Respondent's nursing employment history continued:

12/2014 – 3/2016	Registered Nurse	Clear Lake Regional Hospital Emergency Room Webster, Texas
4/2016 – 12/2016	Unknown	
1/2017 – 7/2017	Registered Nurse	American Mobile Healthcare San Diego, California
8/2017 – 9/2017	Unknown	
10/2017 – 12/2018	Registered Nurse	Baylor St. Luke's Medical Center Houston, Texas
01/22/19 – Present	Registered Nurse	UTMB/Clear Lake Webster, Texas

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Baylor St. Luke's Medical Center, Houston, Texas, and had been in that position for one (1) year and two (2) months.
7. On or about December 2, 2018, while employed as a Registered Nurse with Baylor St. Luke's Medical Center, Houston, Texas, in the Emergency Department, Respondent incorrectly labeled another patient's type and cross lab draw with a label for Patient Medical Record Number 02080527. There were multiple contributing systems factors including blood left in the patient's room from a previous patient by a previous staff member, failure of Environmental Services to remove the previous patient's blood from the room, and failure of the lab that received the blood from Respondent to identify the double-labeled vial of blood with stickers from 2 separate patients. The patient was later transfused in the Intensive Care Unit, suffered a blood transfusion reaction, and died. An additional systems contributing factor was the failure of the transfusion team which Respondent was not on to timely identify a transfusion reaction by the patient. Respondent's conduct may have contributed to the patient suffering a blood transfusion reaction.
8. In response to Finding of Fact Number Seven (7), Respondent reports she entered the patient's room in the emergency department and encountered a very chaotic scene. Multiple patient family members were already in the room and had numerous personal belongings strewn about the counter, and multiple interdisciplinary departments were present to evaluate the patient. Respondent reports she drew a "rainbow" of blood specimens (tubes with various colored tops), affixed the tubes with white patient labels, and placed them on the counter. Respondent reports she checked the stickers against the patient using two patient identifiers and affixed the correct patient stickers to the tubes.

Respondent reports, unbeknownst to her, the providers for the previous patient had left behind a blood specimen for the previous patient in the room. Respondent reports as a result, the blood specimen stayed in the room for over 10.5 hours and was still in the room at the time Patient Medical Record Number 02080527 was admitted. Respondent reports the blood tube of the previous patient ended up mixed in with Patient Medical Record Number 02080527's blood tubes on the counter amid the clutter and confusion. Respondent reports this tube arrived at the lab with stickers for both patients, and that the lab failed to reject the double-labeled blood specimen.

9. Respondent submitted substantial additional mitigation including the following: 2 good nursing evaluations over the past 2+ years from her current employment at UTMB, 1 positive letter of reference from an APRN colleague at UTMB, accountability, remorse and acceptance of responsibility for contributing to the patient's harm. In addition, Respondent has completed her BSN and her CEN. Respondent has stated how the events in issue have resulted in her improvement in her nursing practice related to blood collections, level of care and caution and her handling of doctor's orders.

#### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §217.11(1)(A),(1)(B),(1)(D)&(3)(A) and 22 TEX. ADMIN. CODE §217.12(1)(A),(1)(B)&(4).
4. The evidence received is sufficient cause pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 845645, heretofore issued to PAMELA DAWN LUMPKINS.
5. Pursuant to Section 301.463(d), Texas Occupations Code, this Agreed Order is a settlement agreement under Rule 408, Texas Rules of Evidence, in civil or criminal litigation.
