issued to PATRICK TIEMEYER	§	
	§	

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of PATRICK TIEMEYER, Registered Nurse License Number 810219, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(1),(10)&(14)(effective 9/1/2021), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on October 12, 2022.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from Brookhaven College, Farmers Branch, Texas, on May 14, 2009. Respondent was licensed to practice professional nursing in the State of Texas on November 8, 2011.
5. Respondent's nursing employment history includes:

11/2011 – 01/2012	Unknown
-------------------	---------

Respondent's nursing employment history continued:

02/2012 – 09/2012	RN Case Manager	New Century Hospice Dallas, Texas

7/2022 – 9/2022	RN	TotalCare ER Garland, Texas
10/2022 – Present	Unknown	

6. On or about May 11, 2021, Respondent was issued the sanction of Reprimand with Stipulations and Fine through an Order of the Board. A copy of the May 11, 2021, Order is attached and incorporated herein by reference as part of this Agreed Order.
7. At the time of the initial incident, Respondent was employed as a Registered Nurse (RN) with TotalCare ER, Garland, Texas, and had been in that position for less than one (1) week.
8. On or about July 10, 2022, while employed as a Registered Nurse with TotalCare ER, Garland, Texas, and during his third training shift, Respondent discharged Patient HL at 0744 after the patient was given Tylenol #3, but failed to confirm that the patient had a ride home by obtaining the driver's signature on the patient's discharge form. As a result, Patient HL drove himself home after receiving a controlled substance. Additionally, after Respondent was notified by another RN that Patient HL drove himself home, he entered a note at 1132, indicating that the patient stated his mother was waiting in the car. Respondent's conduct unnecessarily exposed the patient and the public to a risk of harm in that operating a vehicle while under the influence of a controlled substance could result in injury and/or death.
9. On or about July 21, 2022 to September 2, 2022, Respondent was non-compliant with the Agreed Order issued to him by the Texas Board of Nursing on May 11, 2021. Non-compliance is the result of Respondent's failure to be directly supervised by another RN while on duty. Section VI, Part C, of the Agreed Order dated May 11, 2021 states, in pertinent part:

C. Direct Supervision: For the first year [four (4) quarters] of employment as a Nurse under this Order, RESPONDENT SHALL be directly supervised by a Registered Nurse...

10. In response to Findings of Fact Numbers Eight (8) and Nine (9), regarding Patient HL, Respondent states the patient told him his mother was driving, but she didn't want to come into the ER due to Covid concerns. Regarding his non-compliance, Respondent admits he had not been directly supervised while working at TotalCare ER, other than his first six training shifts. Respondent states he was confused about the quarters of supervision and how his performance evaluations related to the time of the quarter. Respondent states he changed jobs a few times during the first year of his Order and didn't realize that the quarter was no longer good towards his overall employment of two years. Respondent states he thought his first year of direct supervision would be over on May 12, 2022.

07/2019 – 04/2020	RN – ER	UT Southwestern Medical Center Dallas, Texas
04/2020 – Present	Agency RN	AMN Healthcare Coppell, Texas

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with UT Southwestern Medical Center, Dallas, Texas, and had been in that position for five (5) months.
7. On or about December 19, 2020, while employed as a Registered Nurse (RN) in the Emergency Department (ED) of UT Southwestern Medical Center, Dallas, Texas, Respondent removed 4mg of Morphine from the medication dispensing system for Patient Number 72853200 [DL] at 2256, but failed to document the administration of the Morphine in the patient's medication administration record and/or nurse's notes. Additionally, Respondent failed to follow the facility's policy and procedure for wastage of the unused portion of the medication. Respondent's conduct was likely to injure the patient in that subsequent care givers would rely on her documentation to further medicate the patient, which could result in an overdose. Additionally, Respondent's conduct left medications

unaccounted for, was likely to deceive the hospital pharmacy, and placed the hospital in violation of Chapter 481 (Controlled Substances Act) of the Texas Health and Safety Code.

8. On or about January 28, 2020, while employed as a Registered Nurse (RN) in the Emergency Department (ED) of UT Southwestern Medical Center, Dallas, Texas, Respondent failed accurately follow the CIWA-Ar Protocol for Patient Number 92416503 [CM], who was receiving treatment for alcohol detox, by failing to assess the respiratory rate of the patient from 1040 until the end of his shift (1900). Respondent's conduct created an incomplete medical record and unnecessarily exposed the patient to a risk of harm from undetected changes in respiratory rate.
9. On or about January 28, 2020, while employed as a Registered Nurse (RN) in the Emergency Department (ED) of UT Southwestern Medical Center, Dallas, Texas, Respondent falsely documented that he administered lactated ringers to Patient Number 72748603 [JT] at 1750 in that there is not an associated pull in the medication dispensing system for the date and time of the documented administration. Respondent's conduct was deceptive, created an inaccurate medical record, and was likely to injure the patient in that subsequent care givers would not have accurate information to base their decisions for future medical care.
10. On or about January 28, 2020, while employed as a Registered Nurse (RN) in the Emergency Department (ED) of UT Southwestern Medical Center, Dallas, Texas, Respondent administered IV Zosyn, which was ordered to be given "NOW" at 1328 for the treatment of cholecystitis, to Patient Number 70699283 [VB] at 1448. The RN Team Lead pulled the Zosyn for Respondent at 1350. Respondent's conduct unnecessarily delayed the onset of antibiotic therapy for the patient.
11. On or about February 14, 2020, while employed as a Registered Nurse (RN) in the Emergency Department (ED) of UT Southwestern Medical Center, Dallas, Texas, Respondent failed to document the reason for not administering Lokelma to Patient Number 94850617 [JN], in the patient's medication administration record (MAR) and/or nurse's notes. Additionally, Respondent failed to notify the RN who assumed care of his patient for lunch coverage. Respondent's conduct created an incomplete medical record, and was likely to injure the patient in that subsequent care givers did not have accurate and incomplete information to base their decisions for future medical care.
12. On or about March 20, 2020, while employed as a Registered Nurse (RN) in the Emergency Department (ED) of UT Southwestern Medical Center, Dallas, Texas, Respondent created a hostile work environment by slamming his hand on the nurse manager's desk, throwing his work phone across the room, raising his voice, and using profanity after he was confronted about allegations of sleeping while on duty. Respondent's conduct created an unsafe environment.
13. In response to Findings of Fact Numbers Seven (7) through Twelve (12), regarding Patient DL, Respondent states he has no recollection of any notification of this alleged misconduct

by his employer. Regarding Patient CM, Respondent states he remembers, to the best of his knowledge, documenting the patient's respiratory rates. Regarding Patient JT, Respondent states he was never notified of the alleged misconduct and was never reprimanded. Regarding Patient JN, Respondent does not address his lack of documentation. Regarding his conduct, Respondent admits he responded out of character when confronted about the sleeping allegation, but claims his actions did not rise to the level of a hostile work environment. Respondent adds that he had been experiencing increased anxiety due to frequent calls to his manager's office for non-patient related concerns.
