A copy of the September 12, 2017, Order is attached and incorporated herein by reference as part of this Agreed Order.
9. At the time of the initial incident, Respondent was employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, and had been in that position for approximately one (1) month.

10. On or about December 1, 2016 through January 24, 2020, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent failed to properly assess and/or document assessments, diagnoses, and medication administrations of Patients CH, TB, CA, CF, DJ, MOV, MS, GT, HG and RR, under his care. Respondent's conduct resulted in an inaccurate medical record and was likely to injure the patient in that subsequent care givers would not have complete information on which to base their care decisions.
11. On or about March 3, 2017 through December 23, 2019, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent failed to meet the standard of care in the treatment of Patients CH, DJ, MOV, GT, HG, and RR. Respondent engaged in the inappropriate prescribing and administration of testosterone and/or thyroid hormone by failing to perform and/or document the adequate assessments of the patients' medical history, cardiac functioning, and lab values - many of which contraindicated his prescribed treatment-necessary to justify prescribing the medications. Additionally, Respondent repeatedly failed to document the medical rationale for the prescribed testosterone and/or thyroid treatments, any discussion. His inappropriate testosterone treatments exposed the patients to harm, or serious risk of harm, from an increase in red blood cells, which can lead to an increase in blood pressure and a greater risk of heart attack or stroke. His inappropriate thyroid hormone treatments exposed the patients to harm, or serious risk of harm, from palpitations, arrhythmia, bone loss, anxiety, and other symptoms. Respondent's conduct constitutes a continuing and imminent threat to the public health and safety.
12. On or about March 3, 2017 through December 23, 2019, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent exceeded his authorized scope of practice by prescribing testosterone and thyroid hormone treatments to Patients CH, DJ, MOV, GT, HG, and RR without sufficient education, training, and experience necessary to ensure that the prescribed treatments/prescriptions were medically necessary and safe for the patients. Respondent's conduct exposed the patients to harm, or serious risk of harm, from an increase in red blood cells, which can lead to an increase in blood pressure and a greater risk of heart attack or stroke, palpitations, arrhythmia, bone loss, anxiety, and other symptoms.
13. On or about March 24, 2017 through August 20, 2019, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent exceeded his scope of nursing practice by ordering and administering amniotic stem cells to Patients CH, CF, MOV, MS and HG, by injection into joints, without FDA approval. Respondent's conduct exposed patients to a risk of harm from unregulated stem cell treatments, including risk of tumor growth.
14. On or about April 2017 through June 2019, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent failed to complete eight (8) required monthly face-to-face meetings with his supervising physician, as required by his Prescriptive Authority Agreement. Respondent's conduct exposed patients to a risk of

harm in that failure to regularly collaborate with the supervising physician could result in Respondent not receiving the necessary direction and guidance of patient care.

15. On or about March 26, 2018 through January 24, 2020, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent inappropriately prescribed medications and vitamins, including, but, not limited to: Vitamin B12, IV therapy, Toradol, Decadron, Atropine, and Rocephin for intravenous or intramuscular administration to Patients CH, DJ, MOV, GT and HG in that he failed to document an assessment and diagnosis to warrant the administration of Vitamin B12, IV therapy, Toradol, Decadron, Atropine, Rocephin. In addition, on January 5, 2018 and January 21, 2019, Patient HG had elevated levels of Vitamin B12. Respondent's conduct resulted in an inaccurate and incomplete medical record and was likely to injure the patient in that subsequent care givers would not have accurate and complete information on which to base their care decisions.
16. On or about August 23, 2018 through July 1, 2019, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent violated the boundaries of the nurse/client relationship by inappropriately engaging in an intimate relationship with Patient RR. Respondent's conduct was likely to injure the patient in that it could have resulted in confusion between the needs of the nurse and those of the patient.
17. On or about November 16, 2018 through January 13, 2020, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent exceeded his scope of nursing practice by ordering and administering homeopathic products, including, but not limited to: Traumeel, Spascupreei, Zeel, and Neuralgo-Rheum, to Patients CH, CA, DJ, and MS, without FDA approval. Respondent's conduct exposed patients to a risk of harm from unregulated treatments
18. On or about November 30, 2018 through January 24, 2020, while employed as a Family Nurse Practitioner with Southlake Physical Medicine, Southlake, Texas, Respondent inappropriately delegated the administration of Vitamin B12 with amino acids, by injection, and IV therapy to medication aides for Patient HG and Patient GT. Respondent's conduct exposed patients to a risk of harm in that personnel with improper training may administer medications incorrectly or may not recognize adverse reactions.
19. Formal Charges were filed on December 11, 2020.

Dear Mr. Talley:

This letter is written to notify you that your application for Advanced Practice Registered Nurse (APRN) licensure as a Family Nurse Practitioner with prescriptive authority in the state of Texas has been approved as of 02/12/2015 subject to the conditions contained in your agreed order of 1/22/2015.

As you will recall, on 1/22/2015, you were issued an Order by the Board affecting your registered nursing license and any subsequent license that might be issued by the Board. Our records indicate that you have not yet successfully completed the terms of that Order. Therefore, although you have been deemed eligible to receive an APRN license in the role and population focus of Family Nurse Practitioner with prescriptive authority, the remaining terms of your prior Order will be applied to any professional nursing license issued to you by the Board. As a result, both your RN and APRN licenses as well as your prescriptive authority will be subject to the remaining requirements of the Order, a copy of which is attached hereto for your reference.

A new Order will not be issued to you. However, your prior Order and this correspondence is public information. The encumbrances from your prior Order that will be applied to your APRN license will be forwarded to the National Council of State Boards of Nursing, Inc., and the National Practitioner Data Bank (NPDB).

Sincerely,

James W. Johnston, General Counsel

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of
Registered Nurse License Number 717298
Issued to PHILIP DUANE TALLEY

§ AGREE
§
§ ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of PHILIP DUANE TALLEY, Registered Nurse License Number 717298, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on November 13, 2014.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from Odessa College, Odessa, Texas, on May 13, 2005. Respondent was licensed to practice professional nursing in the State of Texas on June 21, 2005. Respondent was licensed as a Certified Nurse Practitioner in the State of New Mexico on February 12, 2014.
5. Respondent's nursing employment history includes:

06/05-12/11	RN	Odessa Regional Medical Center Odessa, Texas
01/12-Present	Unknown	

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Odessa Regional Medical Center, and had been in this position for approximately six (6) years and six (6) months.
7. On or about October 29, 2011, while employed as a Registered Nurse with Odessa Regional Medical Center, Odessa, Texas, Respondent withdrew Demerol fifty (50) milligrams from the Medication Dispensing System at 1115 for patient medical record number 130200923, but failed to document, or completely and accurately document the administration and waste of the Demerol, including signs, symptoms, and responses to the Demerol in the patients Medication Administration Records, Nurses Notes and/or Pharmacy records. Respondent's conduct was likely to injure the patient, in that subsequent care givers would rely on his documentation to further medicate the patients which could result in an overdose, and Respondent's conduct placed the hospital and pharmacy in violation of Chapter 481 (Controlled Substances Act) of the Texas Health and Safety Code.
8. On or about November 1, 2011, through November 26, 2011, while employed as a Registered Nurse with Odessa Regional Medical Center, Odessa, Texas, Respondent used the name and Drug Enforcement Administration (DEA) number of Bindu B. Nair, MD, and Billy Aguilar, Family Nurse Practitioner, to call in fraudulent unauthorized prescriptions for Hydrocodone and Azithromycin. Respondent's conduct was likely to deceive the pharmacy and possession of Hydrocodone through the use of fraudulent unauthorized prescription is prohibited by Chapter 481 of the Texas Health and Safety Code (Controlled Substances Act).
9. In response to Findings of Fact Numbers Seven (7) through Eight (8), Respondent states all medications were administered as ordered and communicated to attending staff during the course of patient care. Additionally, Respondent states that he had been treated by, and believed he had authorization to call in the prescription, but admits that he should not have called in these prescriptions himself.
10. On or about December 19, 2013, and January 21, 2014, Respondent completed a Chemical Dependency Evaluation with Alexander Howe, PhD. Dr. Howe states that the assessment of Respondent's thoughts, emotions and behaviors as they relate to his usage of alcohol, street or illicit drugs, or non-prescribed medication for him does not currently define the presence of current abuse and/or dependence disorder. Additionally, Dr. Howe states, Respondent does not present as possessing either a major emotional disorder or psychotic disorder or enduring personality disorder; however, the allegations of his behavior in providing nursing care to patients within the confines of the Emergency Room (ER) does suggest the potential for concern within the ER milieu. Additionally, it appears that within that setting, there has been a lack of clearly defined lines of responsibility in providing appropriate medical care to the specific medical providers. Dr. Howe asserts, it also appears that there is a lack of clearly defined rules of maintaining responsible control of medications... ordered, withdrawn, administered, documented, and possibly wasted. Dr. Howe concludes both the Board of Nursing, as well as the specific medical facility may consider either expanding the knowledge base of the Respondent or imposing greater standards of care to ensure the medical care of the patients is within their respective charge.

11. Formal Charges were filed on November 6, 2013.
12. Formal Charges were mailed to Respondent on November 6, 2013.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §217.11(1)(A), (1)(B), (1)(C) & (1)(D) and 22 TEX. ADMIN. CODE §217.12(1)(A), (1)(B), (1)(C), (4), (6)(A), (6)(C), (6)(H), (10)(B), (10)(E) & (11)(B).
4. The evidence received is sufficient cause pursuant to Section 301.452(a), (10) & (15), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 717298, heretofore issued to PHILIP DUANE TALLEY, including revocation of Respondent's license(s) to practice nursing in the State of Texas.
