Ms. O feels Petitioner is addressing her own mental health issues by practicing positive and consistent coping mechanisms and building a strong support system to help her through life's trials.
 - 8.6. Letter of support, dated December 16, 2015, from Jean Nast, Weatherford, Texas, stating she has been a sober member of Alcoholics Anonymous since October 19, 1991, and has been sponsoring Petitioner in AA since the beginning of this past summer. I do hereby certify this to be a complete, accurate, and true copy of the document which is on file or is of record in the offices of the Texas Board of Nursing.
Katherine A. Thomas
Executive Director of the Board

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of JACKIE RENEE TALMADGE, Registered Nurse License Number 713362, and Vocational Nurse License Number 185981, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10),(12)&(13) and 301.453, Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on November 29, 2012.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional and vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from Weatherford College, Weatherford, Texas, on August 16, 2002. Respondent was licensed to practice vocational nursing in the State of Texas on October 15, 2002. Respondent received an Associate Degree in Nursing from McLennan Community College, Waco, Texas, on December 9, 2004. Respondent was licensed to practice professional nursing in the State of Texas on February 8, 2005.

5. Respondent's complete professional and vocational nursing employment history includes:

10/02-01/05	LVN	Kindred Hospital, Tarrant County Southwest Fort Worth, Texas
02/05-01/07	RN	Kindred Hospital, Tarrant County Southwest Fort Worth, Texas
01/07-12/07	RN	Lifecare Hospitals of Fort Worth Fort Worth, Texas
11/07-11/09	RN	Methodist Mansfield Medical Center Mansfield, Texas
12/09-01/10	Unknown	
02/10-08/11	RN	UT Southwestern Hospital Dallas, Texas
08/11-02/12	RN	Texas Health Harris Methodist Southwest Fort Worth Hospital, Fort Worth, Texas
03/12-Present	Unknown	

6. On or about August 12, 2010, while employed as a Registered Nurse with UT Southwestern Hospital and assigned to the St. Paul Building, Dallas, Texas, Respondent lacked fitness to practice nursing in that she showed general odd behaviors including: unable to stay still, slouching, moving her jaw muscles side to side, and tightening then releasing her neck muscles. Additionally, once confronted about her behavior and given the option of a drug screen, Respondent resigned in lieu of submitting a specimen for a drug screen. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
7. In response to Finding of Fact Number Six (6), Respondent states that during her employment she was experiencing depression and anxiety resulting from her divorce and the amount of stressed placed on her shoulders when she was suddenly without a support system and the full time care giver of her three (3) children.
8. On or about July 22, 2011, while employed as a Registered Nurse with Kindred Hospital Fort Worth Southwest, Fort Worth, Texas, Respondent withdrew Dilaudid from the Medication Dispensing System for a patient, but failed to document or completely and accurately

document the administration of the medication, including signs, symptoms, and responses to the medication in the patients' Medication Administration Records and/or nurses notes. Respondent's conduct was likely to injure the patients in that subsequent care givers would rely on her documentation to further medicate the patient which could result in an overdose.

9. On or about July 22, 2011, while employed as a Registered Nurse with Kindred Hospital Fort Worth Southwest, Fort Worth, Texas, Respondent withdrew Dilaudid from the Medication Dispensing System for a patient, but failed to follow the facility's policy and procedures for wastage of any of the unused portions of the medications. Respondent's conduct was likely to deceive the hospital pharmacy and placed them in violation of Chapter 481 of the Texas Health and Safety Code (Controlled Substances Act).
10. On or about July 26, 2011, while employed as a Registered Nurse with Kindred Hospital Fort Worth Southwest, Fort Worth, Texas, Respondent lacked fitness to practice nursing in that she fell asleep while at a patient's bedside, had slow and slightly slurred speech, and demonstrated an unsteady gait. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
11. On or about July 22, 2011, while employed as a Registered Nurse with Kindred Hospital Fort Worth Southwest, Fort Worth, Texas, Respondent misappropriated Dilaudid from the facility or patients thereof or failed to take precautions to prevent such misappropriation. Additionally, when confronted Respondent presented an empty vial of Dilaudid and a 3cc syringe with clear liquid. The syringe fluid was tested and found not to contain any drug content. Respondent's conduct was likely to defraud the facility and patients of the cost of the medications.
12. In response to Findings of Fact Numbers Eight (8), through Eleven (11), Respondent states that she met and began a relationship with a man who physically and mentally abused her. Respondent states she was suspended from Kindred for a medication error. Respondent states she became more depressed and started displaying some of the same physical traits that led to her previous termination and in an attempt to cover up her error and save her job she drew up saline into a syringe and was intending to waste the contents when her supervisor took her aside and sent her home.
13. On or about February 9, 2012, while employed as a Registered Nurse with Texas Health Harris Methodist Southwest Fort Worth Hospital, Fort Worth, Texas, Respondent lacked fitness to practice nursing in that she smelled of alcohol, appeared slow, tearful at times and fumbled a lot. Additionally, when confronted and a blood screen was requested Respondent refused. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.

14. On or about February 5, 2012, while employed as a Registered Nurse with Texas Health Harris Methodist Southwest Fort Worth Hospital, Fort Worth, Texas, Respondent withdrew Dilaudid from the Medication Dispensing system for patient "T" at 0334 but failed to waste unused portions of the medication until 0605. Respondent failed to take precautions to prevent the loss of the medication.
15. On or about October 29, 2012, Respondent completed a chemical dependency evaluation performed by Dr. Jim Womack. Dr. Womack states that Respondent denied abusing alcohol, and described herself as a "social drinker"; however, her account of long-term consumption of "probably two (2) bottles of wine a week" involving "1.75 liter bottles," reflects almost seventeen (17) ounces of wine each day. Additionally, Dr. Womack states Respondent admitted to using mouthwash to camouflage the alcohol smell on her breath when at work, and more recently, Respondent indicated that she would get her children off to school and have a couple to a few glasses of wine to go to sleep. Dr. Womack concludes that the Respondent is at risk for continued alcohol abuse without ongoing psychotherapy until such time her life has been stabilized for at least a year from the onset of her reported therapy, or until such time her therapist is able to provide a positive report of her emotional stability, social judgment, and coping methods in dealing with stress. Dr. Womack reports that Respondent's personality development puts her at risk for deterioration in many aspects of her life unless she gains insight and skills with which to address past regrets and emotional pain, and how to effectively cope with future ones. Dr. Womack states that without such intervention, it is believed that Respondent will be at a heightened risk to continue excessive consumption of alcohol and very poor decision making skills. Dr. Womack recommends, in addition to ongoing psychotherapy by a licensed psychologist adept at addressing dual diagnoses problems (alcohol abuse and problematic personality features), Respondent should agree to random drug testing and should be evaluated by a psychiatrist for the need of medication to assist her in managing her anxiety.
16. The Respondent's conduct as described in the preceding Finding(s) of Fact was reportable under the provisions of Sections 301.401-301.419, Texas Occupations Code.
17. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
18. Respondent's conduct as described in the preceding Finding(s) of Fact resulted from or was significantly influenced by Respondent's substance abuse and/or mental illness.
19. Respondent's compliance with the terms of a Board approved peer assistance program should be sufficient to protect patients and the public.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.455, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE § 217.11(1)(A),(B),(C),(D)&(T) and 22 TEX. ADMIN. CODE § 217.12(1)(A),(B),(C)&(E),(4),(5),(6)(A)&(G),(10)(B)&(C) and (11)(B).
4. The evidence received is sufficient cause pursuant to Section 301.452(b)(10),(12)&(13), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 713362, and Vocational Nurse License Number 185981, heretofore issued to JACKIE RENEE TALMADGE, including revocation of Respondent's license(s) to practice nursing in the State of Texas.
5. The Board may, in its discretion, order a nurse to participate in a peer assistance program approved by the Board if the nurse would otherwise have been eligible for referral to peer assistance pursuant to Section 301.410, Texas Occupations Code.

ORDER

IT IS THEREFORE AGREED and ORDERED that RESPONDENT, in lieu of the sanction of Revocation under Section 301.453, Texas Occupations Code, SHALL comply with the following conditions for such a time as is required for RESPONDENT to successfully complete the Texas Peer Assistance Program for Nurses (TPAPN):

(2) Upon acceptance into the TPAPN, RESPONDENT SHALL waive confidentiality and provide a copy of the executed TPAPN participation agreement to the Texas Board of Nursing.

(4) RESPONDENT SHALL CAUSE the TPAPN to notify the Texas Board of Nursing of any violation of the TPAPN participation agreement.

IT IS FURTHER AGREED and ORDERED that this Order SHALL be applicable to Respondent's nurse licensure compact privileges, if any, to practice nursing in the State of Texas.

IT IS FURTHER AGREED and ORDERED that while Respondent's license(s) is/are encumbered by this Order, Respondent may not work outside the State of Texas pursuant to a multistate licensure privilege without the written permission of the Texas Board of Nursing and the Board of Nursing in the party state where Respondent wishes to work.

IT IS FURTHER AGREED, SHOULD RESPONDENT fail to comply with this Order or the terms of the participation agreement with the TPAPN, such noncompliance will result in further disciplinary action including EMERGENCY SUSPENSION pursuant to Section 301.4551, Texas Occupations Code, or REVOCATION of Respondent's license(s) and nurse licensure compact privileges, if any, to practice nursing in the State of Texas.
