An informal conference was held on July 11, 2008, at the office of the Texas Board of Nursing, in accordance with Section 301.464 of the Texas Occupations Code.

Respondent appeared in person. Respondent was represented by Kenda Dalrymple, Attorney at Law. In attendance were Katherine A. Thomas, MN, RN, Executive Director; Victoria Cox North, Assistant General Counsel; Anthony L. Diggs, MSCJ, Director, Enforcement Division; Cynthia A. Smith, Supervising Investigator; and Marcia Wilson, RN, Investigator.

### FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from Central Texas College, Killeen, Texas, on August 14, 2004. Respondent was licensed to practice vocational nursing in the State of Texas on October 12, 2004.
5. Respondent's vocational nursing employment history includes:

10/2004 - 04/2005

Charge Nurse

Spring Oaks Nursing and Rehab  
Lampasas, Texas

Respondent's vocational nursing employment history continued:

05/2005

Not employed in nursing

06/2005 - Unknown

Staff Nurse

Hill Country Rehabilitation and  
Nursing Center  
Copperas Cove, Texas

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as a Staff Nurse with Hill Country Rehabilitation and Nursing Center, and had been in this position for one (1) year and five (5) months.
7. On or about October 9, 2006, through November 8, 2006, while employed with Hill Country Rehabilitation and Nursing Center, Copperas Cove, Texas, Respondent failed to notify the physician and intervene appropriately, as required by the facility's policy and procedure, when the blood sugar levels of Resident MH were less than 60, as follows:

Date	Time	Blood Sugar Level	Intervention	Physician Notification
10/9/06	11:05	51	Gave graham crackers and orange juice.	None.
	11:25	56	None.	None.
	12:15	55	Administered 1 tube of liquid glucose.	None.
10/24/06	11:30	36	Administered 3 glucose tablets.	None.
	11:50	46	Taken to dining room.	None.
10/27/06	06:50	41	Administered cake icing.	None.
	07:05	30	Administered Glucagon injection.	None.
10/30/06	11:10	45	Administered 3 glucose tablets.	None.
	11:30	55	Gave lunch tray.	None.
11/03/06	06:30	50	Administered 3 glucose tablets.	None.
	07:00	50	Gave breakfast tray.	None.
11/08/06	06:30	48	Administered 3 glucose tablets.	None.
	07:00	54	07:30 Gave breakfast tray.	None.

The facility's policy required that the physician be notified when a resident's blood sugar remained less than 60 for thirty (30) minutes after administering one (1) teaspoon of cake frosting or six (6) ounces of orange juice. According to the physician's orders, three (3) tablets of glucose were to be administered every fifteen (15) minutes, as needed, for blood glucose levels less than 60, which would have required that the resident's blood sugar level be re-checked every fifteen (15) minutes, and glucose tablets to be administered as needed, until the blood glucose level was no longer less than 60. On November 10, 2006, Resident MH was found to be unresponsive and with blood sugar level too low for the monitor to record a numerical result. Upon emergent transport to a hospital, it was determined that the

resident had suffered anoxic metabolic encephalopathy. The resident expired seven (7) days later.

8. In response to the incidents in Finding of Fact Number Seven (7), Respondent states that there were often not enough glucose tablets and, therefore, she used other interventions such as having Resident MH eat, especially after the resident returned from dialysis. Respondent states that the Resident was a brittle diabetic whose blood sugar readings would vary widely. Respondent states that she believed it was appropriate to have the Resident eat rather than always rely on glucose tablets because food would raise the Resident's blood sugar and help keep it level without the sudden drop in blood sugar that tended to occur with glucose tablets. Respondent was not working on November 10, 2006, and she did not care for the Resident on the date that the Resident was found to be unresponsive and was transported to the hospital.
9. Charges were filed on January 16, 2008.
10. Charges were mailed to Respondent on January 18, 2008.
11. Respondent filed her Answer to the Formal Charges on February 6, 2008.

#### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
